

OptiFlo®

Aboveground Pool Pump

By Pentair Pool Products®

Reliability and versatility for aboveground pools

OptiFlo® is the pump that's specially designed to deliver dependable high-efficiency flow performance and easy maintenance for aboveground pool owners. Our proprietary hydraulic design is extremely efficient and delivers the ideal flow and pressure for aboveground pools. And we've packed OptiFlo with user-friendly convenience features, such as see-thru lids for easy inspection, and large strainer baskets that minimize the time you need to spend removing dirt and debris. And when you do need to access the basket, our exclusive Cam and Ramp™ lid comes off and locks back in place with a simple quarter-turn.

- Large strainer basket extends time between cleanings.
- See-thru lid permits easy inspection of strainer basket.
- Cam and Ramp lid locks in place with a quarter-turn.
- User-friendly drain plugs stand up to years of use.

OptiFlo[®] Aboveground Pool Pump

See-thru lid for easy inspection of strainer basket

Cam and Ramp™ lid locks in place with a quarter-turn

Large strainer basket extends time between cleanings

Easy-to-remove drain plugs for fast winterization

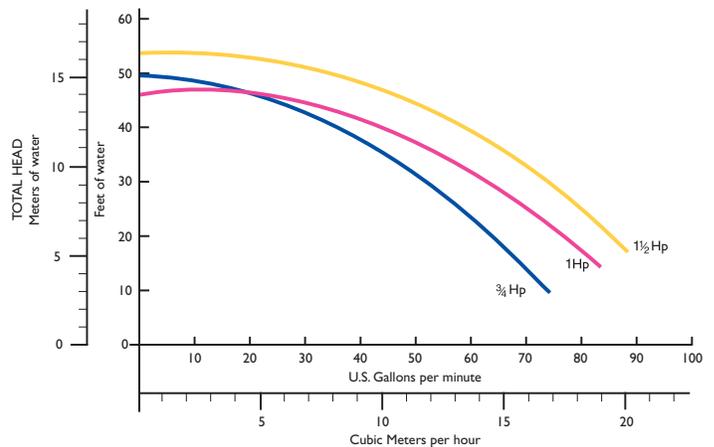

Economical to own, simple to service

OptiFlo[®] brings Pentair's proven performance and durability to aboveground pools. We've designed it to be easy to operate and maintain, and simple to service. And like all Pentair pumps, it's efficient and provides long, trouble-free life.

- Pump components are fiberglass reinforced for superior strength and long life.
- Metal motor base for strength, durability, and years of service.
- Easy access discharge port converts between horizontal and vertical for fast in-field service, minimizing labor expense.
- Unique volute and impeller provide excellent pressure performance across a wide range of flow rates.
- Every OptiFlo pump is performance and pressure tested prior to shipment to ensure superior quality.
- One-year limited warranty. See warranty for details.
