ViewSonic®
VP201m/VP201mb LCD Display

- **OPTISYNC** *BEYOND DIGITAL*™ **technology**
  This multi-mode input technology supports both digital (DVI) and analog (VGA) signals. The digital interface delivers optimized image quality with minimum adjustments.

- **Full 20.1" viewable screen**

- **Displays a native resolution of 1.9 megapixels (up to 1600 x 1200)**
  Ultra-high pixel density for superior imaging.

- **Landscape or portrait pivot capability**
  Included PerfectPortrait™ software permits the display to pivot 90° to reduce scrolling when word processing, web surfing or working on long spreadsheets.

- **ViewSonic Wizard**
  The ViewSonic Wizard software enables user-friendly installation. The included CD-ROM automates the installation, optimization and registration of your new ViewSonic monitor.

- **Bezel-integrated speakers**
  Two 3-watt speakers provide superior audio quality for all multimedia applications while reducing desktop space required by separate speakers.

The top-of-the line 20" LCD Display

The ViewSonic VP201mb and VP201m LCD displays are the top-of-the-line choice for professionals who spend more than eight hours per day in front of their displays. When ease of cognition is essential, these 20" LCDs are a smart choice. The large 1.9 megapixel (1600 x 1200) display provides extremely legible images, making it ideal for professional applications such as engineering design and financial analysis. What's more, they come with two 3-watt bezel-integrated speakers and pivot easily between landscape and portrait mode. For power users looking for a multimedia LCD, the VP201mb or VP201m is the clear choice.
