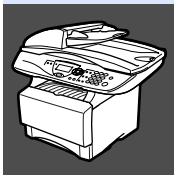
Quick Setup Guide

DCP-8040
DCP-8045D

**Before you can use the DCP, you must set up the hardware and install the driver.
To help you get started in setting up the machine and installing the driver and software, please read this "Setup Guide" and follow the simple instructions.**

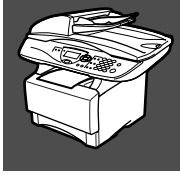
Step 1



Setting Up the Machine

Step 2

Installing the Driver & Software



Setup is Complete!

For the latest drivers and to find the best solution for your problem or question, access the Brother Solutions Center directly from the driver or go to **http://solutions.brother.com**
Keep this "Quick Setup Guide", User's Guide and supplied CD-ROM in a convenient place for quick and easy reference at all times.

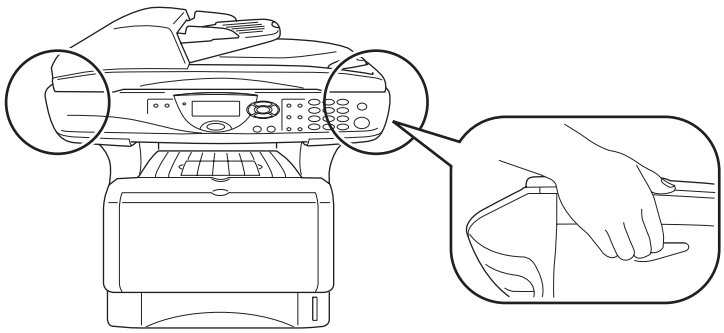
Carton components may differ from one country to another.
Save all packing materials and the carton.

- *The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (Parallel or USB).*
- *For Parallel use a bi-directional shield interface cable that is IEEE 1284-compliant, and not longer than 2 meters.*
- *For USB use a Hi-Speed USB 2.0 interface cable that is not longer than 2 meters.*
- *Please make sure that you use a Hi-Speed USB 2.0 certified cable if your computer uses a Hi-Speed USB 2.0 interface.*
- *Even if your computer has a USB 1.1 interface, you can connect the DCP.*

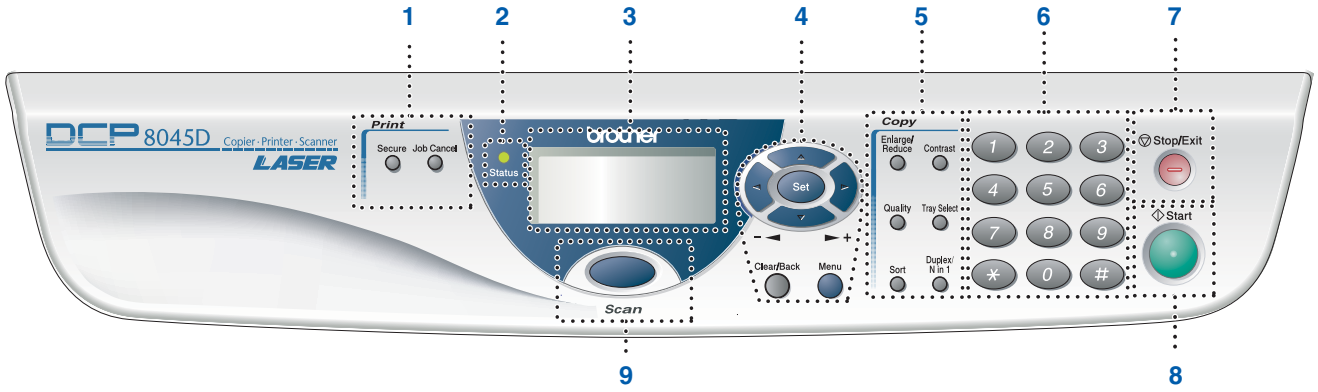
Warning

When you move the DCP, grasp the side handholds that are under the scanner. Do NOT carry the DCP by holding it at the bottom.



Control Panel

DCP-8040 and DCP-8045D have similar control panel keys.



1. Print keys	**4**. Navigation keys	**7**. Stop/Exit
2. Status LED (Light-Emitting Diode)	**5**. Copy keys (Temporary Settings)	**8**. Start
3. 5-Line Liquid Crystal Display (LCD)	**6**. Numeric keys	**9**. Scan key

For the details of the control panel, see "Control panel overview" in Chapter 1 of the User's Guide.

Warning		**Hint**	**User's Guide**
Indicates warnings that must be observed to prevent possible personal injury.	Indicates cautions that must be observed to use the DCP properly or to prevent damage to the DCP.	Indicates notes and useful tips to remember when using the DCP.	Indicates reference to the User's Guide.

Setting your IP Address, Subnet Mask and Gateway using
BRAdmin Professional (Windows® Users Only) 42

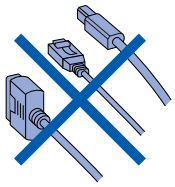
Options 43

Replacement Consumables 43

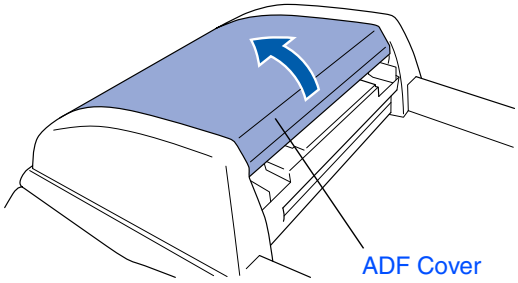
Step 1 Setting Up the Machine

1 Install the Automatic Document Feed (ADF) Support

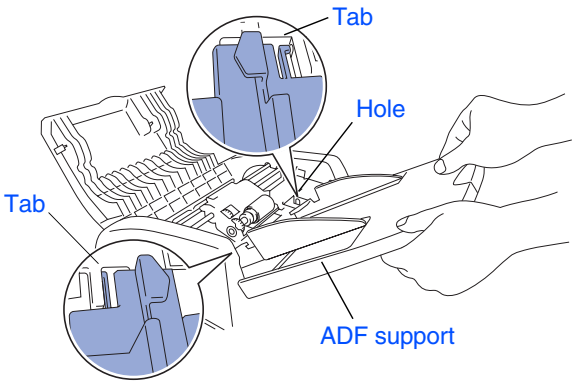
Do NOT connect the interface cable. Connecting the interface cable is done when installing the driver.



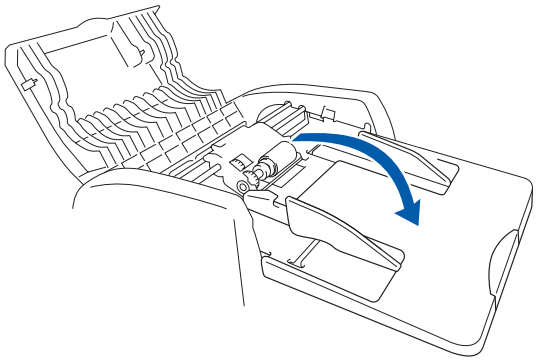
1. Open the ADF cover.



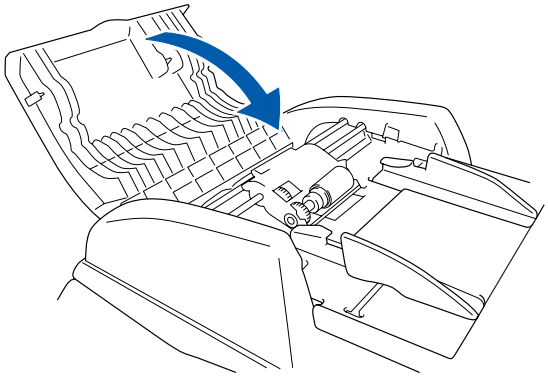
2. Insert the tabs of ADF support into the holes of the ADF one side at a time.



3. Push ADF Support down until it latches in place.

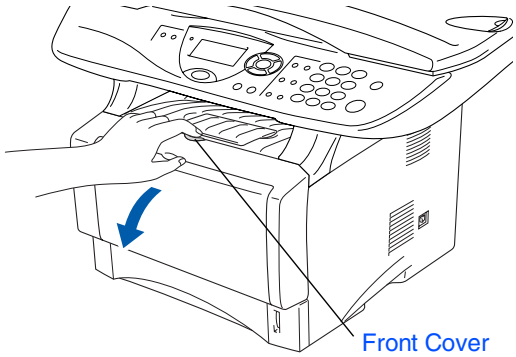


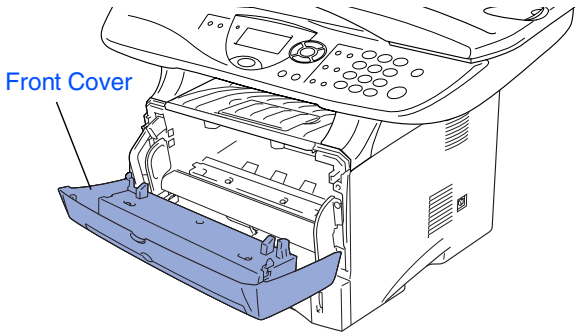
4. Close the ADF cover.



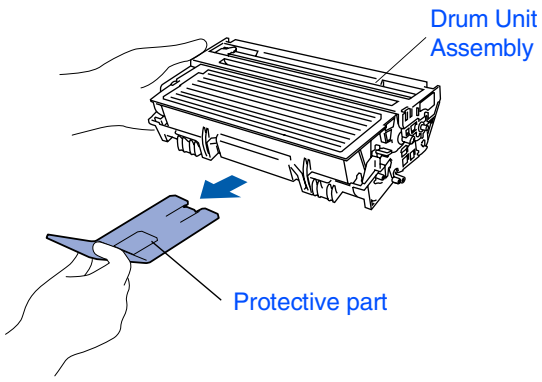
2 Install the Drum Unit Assembly

1. Open the front cover by pressing the front cover release button.

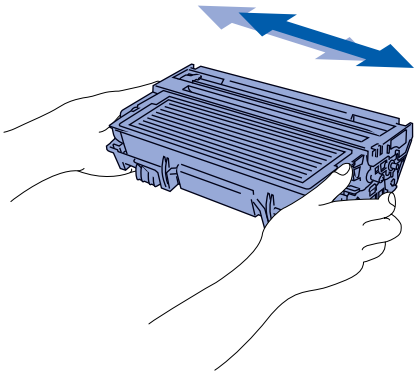




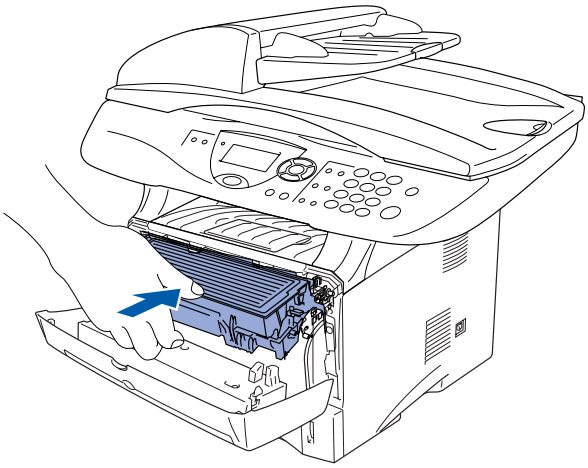
2. Unpack the drum unit assembly. Remove the protective part.



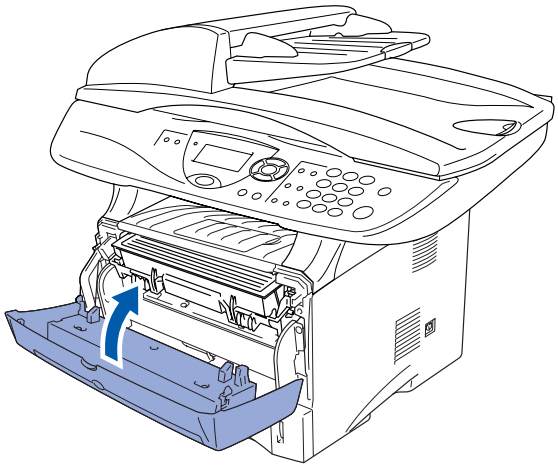
3 Rock it from side to side several times to distribute the toner evenly inside the assembly.



4 Push the drum unit assembly into the DCP (until it snaps into place).

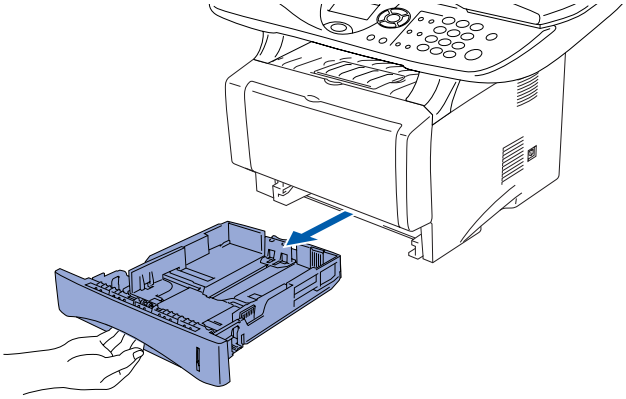


5 Close the front cover of the DCP.

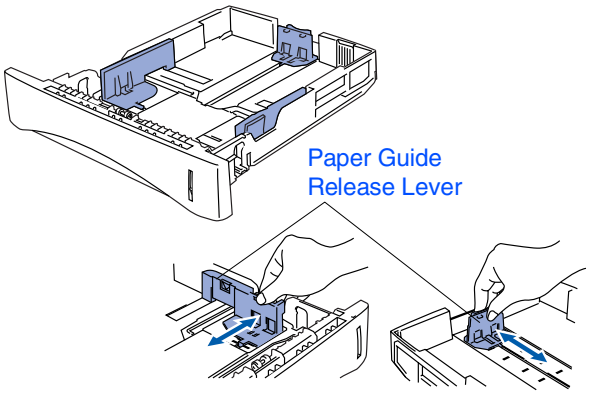


3 Load Paper in the Paper Tray

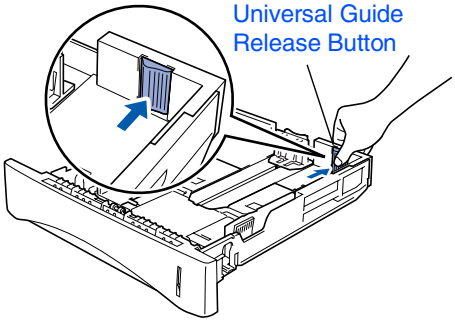
1 Pull the paper tray completely out of the DCP.



2 While pressing the paper guide release lever, slide the adjusters to fit the paper size. Check that the guides are firmly in the slots on the tray.

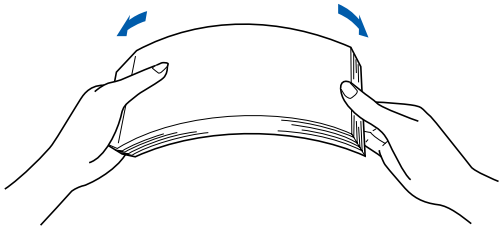


For Legal size paper, press the universal guide release button and pull out the rear of the paper tray.

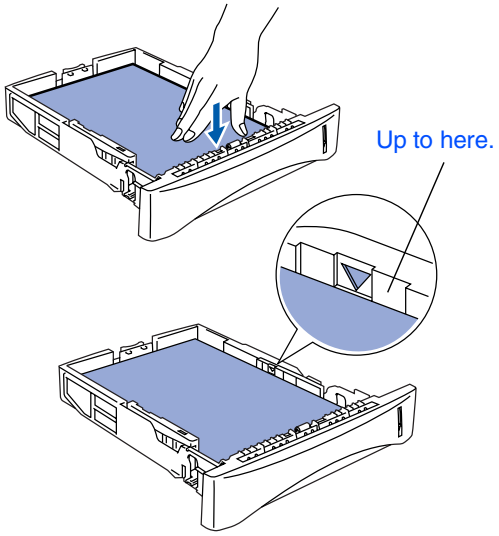


Continued ...

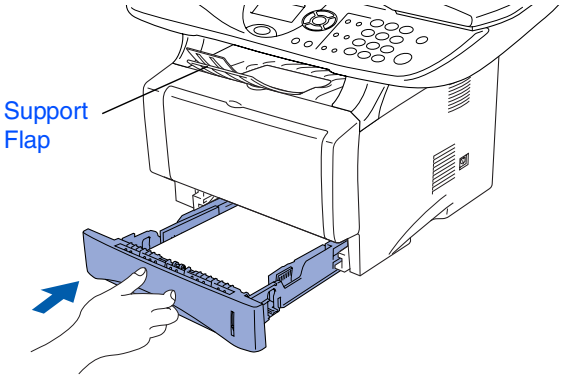
3 Fan the stack of paper well to avoid paper jams and misfeeds.



4 Put paper in the paper tray.
Check that the paper is flat in the tray and below the maximum paper mark.



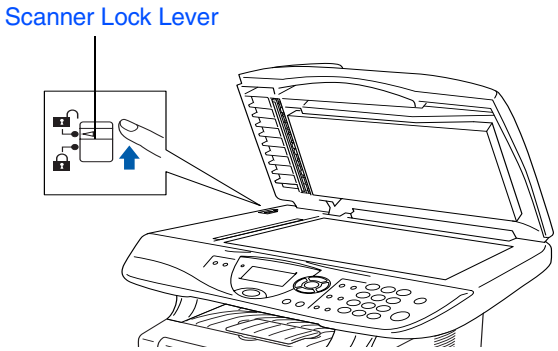
5 Put the paper tray firmly back in the DCP and unfold the Support flap before you use the DCP.



For details on supported paper specifications, see "Paper" in Chapter 2 of the User's Guide.

4 Release the Scanner Lock

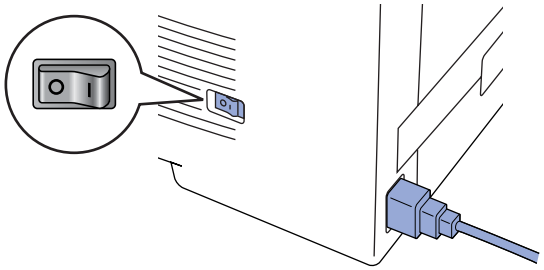
1 Push the lever up to unlock the scanner. (The gray scanner lock lever is located at the back left under side of the document cover.)



5 Install the Power Cord

Do not connect the Parallel or USB cable yet.

1 Make sure that the power switch is off. Connect the AC power cord to the DCP.



2 Plug the AC power cord into an AC outlet. Turn the power switch on.

If `Check Scan Lock` *appears on the LCD, immediately release the scanner lock and press* ***Stop/Exit****.*

6 Selecting Your Country (Not Language)

Norway, Sweden, Finland and Denmark only.
You must set your country so that the DCP works correctly. (This function is not available on UK, Asia and Oceania machine.)

1. Check that the power is turned on by plugging in the power cord and turn the power switch on.
   Press **Set**.

Set Country
Press Set Key

2. Press ▲ or ▼ to select the country (NORWAY, SWEDEN, FINLAND or DENMARK). (Make sure you set your country, not your language.)

Set Country ▲Norway Sweden ▼Finland
Select ▲▼ & Set

3. Press **Set** when the LCD shows your country.

4. The LCD prompts you to make sure of the country again.

Set Country Norway 1.Yes 2.No
Enter Number

5. If the LCD shows the correct country, press **1** to go to Step 6.
   —OR—
   Press **2** to go back to Step 1 to select the country again.

6. After the LCD shows `Accepted` for two seconds, it shows `Vennligst vent`.

Set Country Norway 1.Yes 2.No
Accepted

If you select "NORWAY" in step 4, the LCD shows Norwegian messages.

7. After the LCD returns to the copy mode, turn the power switch off, and then turn it on again.

7 Selecting Your Language

You can change LCD Language. (This function is not available on UK, Asia and Oceania machine.)

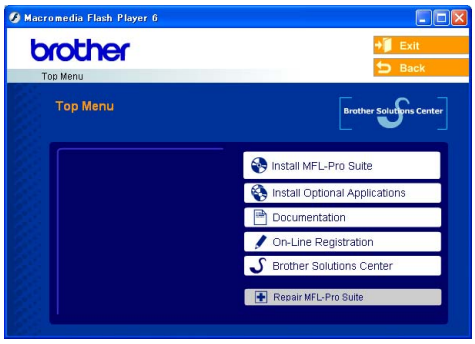
1. Press the **Menu** key.
2. Press the 1 key.
3. Press the 0 key.
4. Press ▲ or ▼ to select your language, and then press the **Set** key.
5. Press the **Stop/Exit** key.

Go to Next page to install the driver

Supplied CD-ROM “MFL-Pro Suite”

The CD-ROM includes the following items:

Windows®



MFL-Pro Suite includes Printer Driver, Scanner Driver, ScanSoft® PaperPort® 9.0SE, ScanSoft® OmniPage® and True Type® fonts. PaperPort® 9.0SE is a document management application for viewing scanned documents. ScanSoft® OmniPage®, which is integrated into PaperPort® 9.0SE, is an OCR application that converts an image into text and inserts it into your default word processor.

Install MFL-Pro Suite
You can install the MFL-Pro Suite and multifunction drivers.

Install Optional Applications
You can install additional MFL-Pro Suite software utilities.

For Administrators ..... Go to page 40

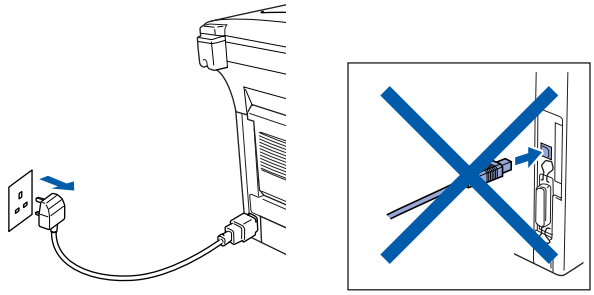
Step 2 Installing the Driver & Software

For USB Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 “Setting Up the Machine” on pages 2 - 5.

- *Brother recommends you connect the machine directly to your computer.*
- *Please close any applications running before installing the MFL-Pro.*

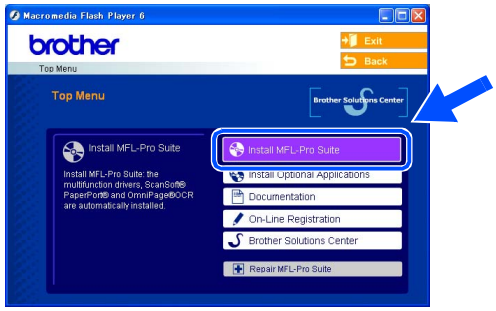
1. Disconnect the DCP from the power socket and from your computer, if you have already connected an interface cable.



2. Turn on your computer.
(For Windows® 2000 Professional/XP, you must be logged on as the administrator.)

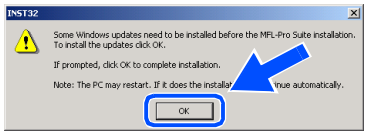
3. Insert the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, select the DCP. If the language screen appears, select your language.

4. The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.



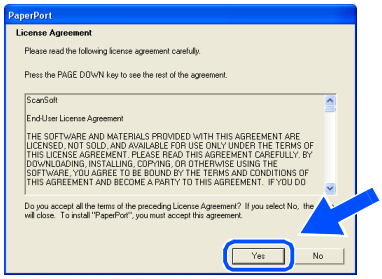
*If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

*If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed, your PC may restart. Then the installation will automatically continue.*



*If the installation does not continue automatically, please open the main menu again by ejecting then reinserting the CD-ROM disc or double-click the **setup.exe** program from the root directory, and continue from Step 4 to install the MFL-Pro Suite.*

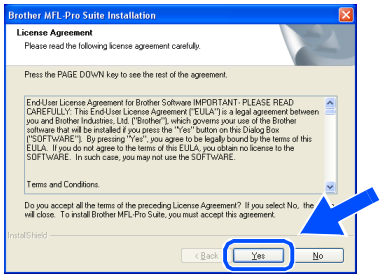
5 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.



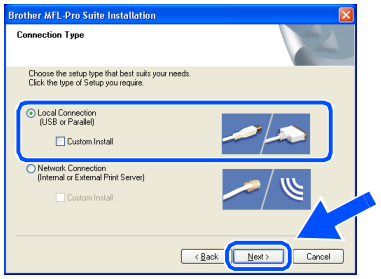
6 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

*If an error message appears during the installation process, you can repair and reinstall the software. From the CD menu, select **Repair MFL-Pro Suite** and follow the instructions on the screen.*

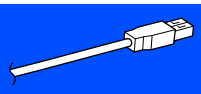
7 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.



8 Select **Local Connection**, and then click **Next**.
The installation will continue.



*If you want to install the PS driver, select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.*



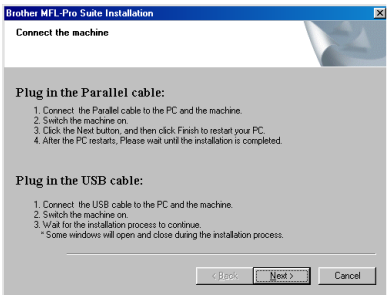
Windows® 98/98SE/Me Users
→ Go to page 10
Windows® 2000 Professional Users
→ Go to page 11
Windows® XP Users
→ Go to page 14

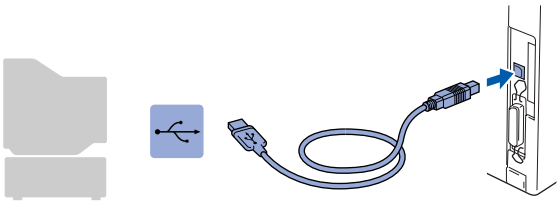
For USB Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

For Windows® 98/98SE/Me Users Only

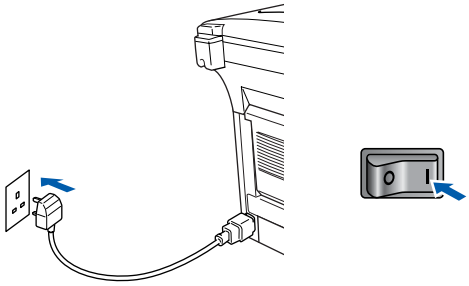
Make sure that you followed the instructions in 1 to 8 on pages 8 - 9.

9 When the screen appears, connect the USB interface cable to your PC, and then connect it to the DCP.



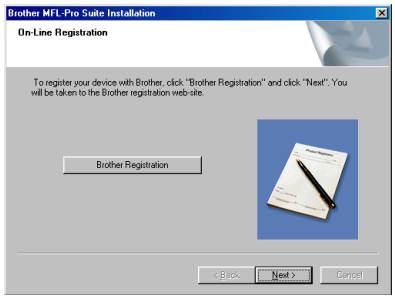


10 Plug in the power cord and turn on the DCP.

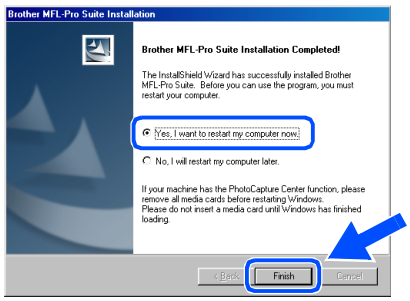


It will take a few seconds for the installation screens to appear.
The installation of the Brother drivers will automatically start. The installation screens appear one after another, please wait for a while.

11 When the Brother on-line Registration screen is displayed, make your selection and follow the on-screen instructions.



12 When the following screen appears, click **Finish** and wait as the PC restarts Windows and continues the installation.



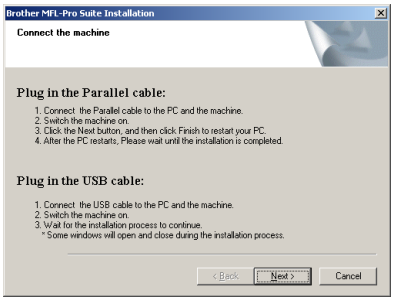
*If the installation is unsuccessful, try installing again using the **Repair MFL-Pro Suite** option from the main menu. Select **Repair MFL-Pro** and follow the instructions on the screen.*

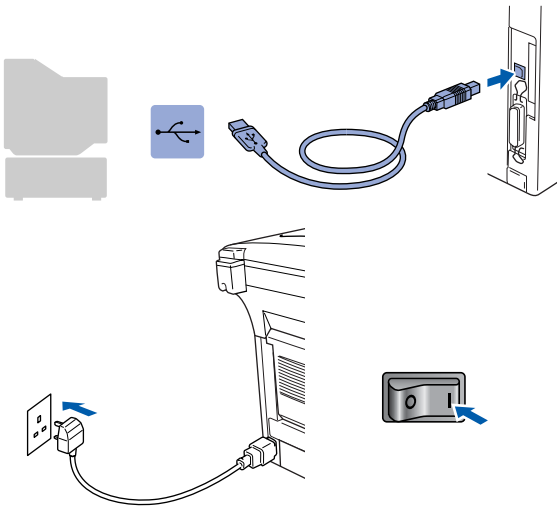
OK! **The MFL-Pro Suite, Printer driver and Scanner driver have been installed and the installation is now complete.**

For Windows® 2000 Professional Users Only

Make sure that you followed the instructions in 1 to 8 on pages 8 - 9.

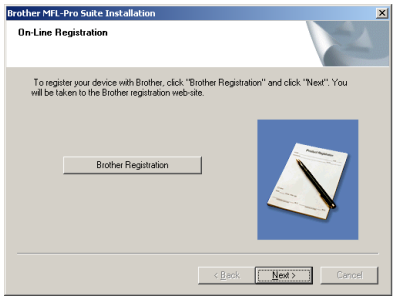
9 When this screen appears, connect the USB interface cable to your PC, and then connect it to the DCP.
Plug in the power cord and turn on the DCP.



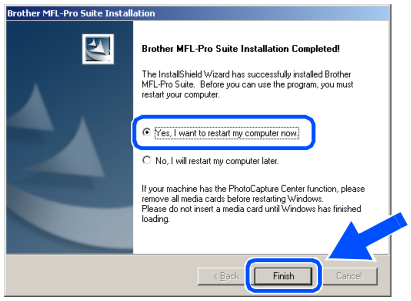


It will take a few seconds for the installation screen to appear.
The installation of the Brother drivers will automatically start. Follow the instructions on the screen.

10 When the Brother on-line Registration screen is displayed, make your selection and follow the on-screen instructions.



11 When the following screen appears, click **Finish** and wait as the PC restarts Windows and continues the installation.



OK! **A Basic Universal printer driver was installed with the MFL-Pro Suite which is certified for use with Windows® operating systems.**

Brother also offers a full featured printer driver (Native driver) that includes more features than the Basic Universal driver. However, this driver does not include a Windows® certificate. To install the Brother Native driver proceed to step 12.

For details on what features are available see Chapter 2 of the Software User's Guide.

OK! **A Basic Universal printer driver was installed with the MFL-Pro Suite which is certified for use with Windows® operating systems.**

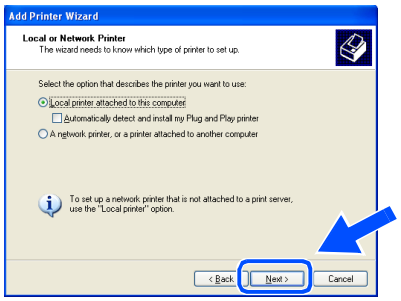
Brother also offers a full featured printer driver (Native driver) that includes more features than the Basic Universal driver. However, this driver does not include a Windows® certificate. To install the Brother Native driver proceed to step 12.

For details on what features are available see Chapter 2 of the Software User's Guide.

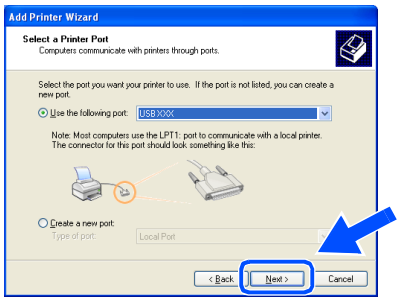
Brother Native driver Installation

12 Click **Start** and select **Printers and Faxes**. Click on **Add a printer** and the Add Printer Wizard will start.
When this screen appears, click **Next**.

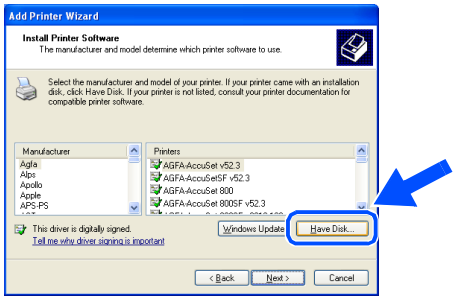
13 Un-check the **Automatically detect and install my Plug and Play printer** selection and then click **Next**.



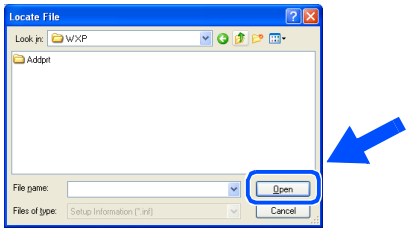
14 Select **USBXXX** from the pull down window for the Printer Port Selection and then click **Next**.



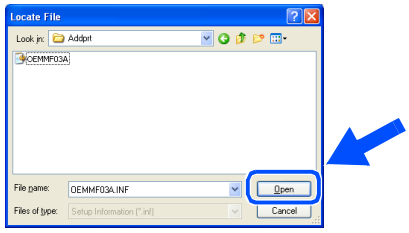
15 Click on **Have Disk**.



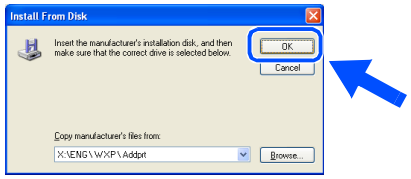
16 Browse the CD-ROM and highlight your language folder and click **Open**. Highlight the **WXP** folder and click **Open**. Highlight the **Addprt** folder and click **Open**.



17 Click **Open**.



18 Make sure **X:\ENG\WXP\Addprt** is displayed in the window and click **OK** (X:\ is the drive letter of your CD-ROM).

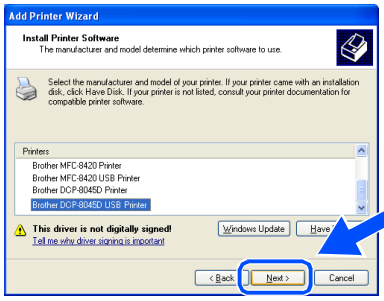


Continued ...

Step 2 Installing the Driver & Software

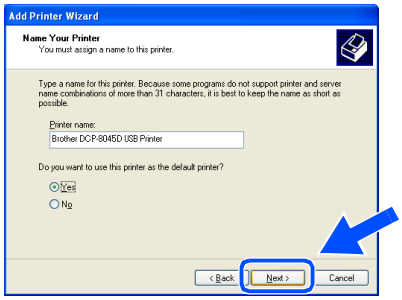
For USB Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

19 Highlight the model you are installing from the list of machines and click **Next**.

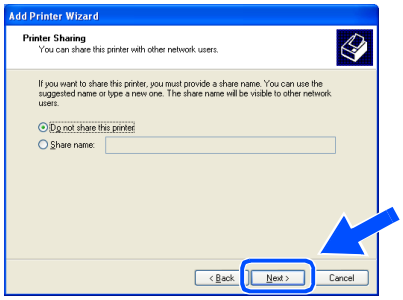


Make sure you select a USB printer.

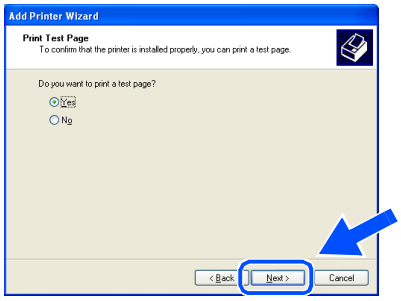
20 The model you are installing will be listed in the window. Select **Yes** or **No** if you want this driver to be your default printer.



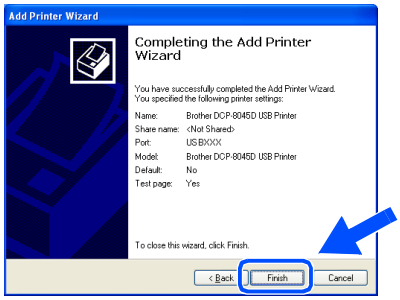
21 If this screen appears, select **Do not share this printer** and **Next**.



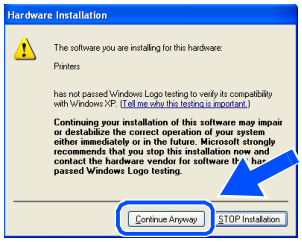
22 Select **Yes** and **Next** to print a test page.



23 When this screen appears, click **Finish**.



24 When the Windows Logo testing screen appears, click **Continue Anyway**.



There will be two Brother printer drivers listed in the Printers selection.
The driver with "Printer" after the model name (ex. Brother DCP-8045D Printer) is the Brother Native Driver.

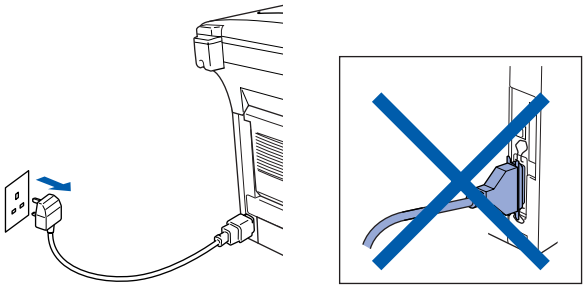
OK! **The Brother Native Drivers have been installed and the installation is now complete.**

For Parallel Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

- *Brother recommends you connect the machine directly to your computer.*
- *Please close any applications running before installing the MFL-Pro.*

1. Switch off and unplug the DCP from the AC outlet and disconnect it from your computer, if you have already connected an interface cable.



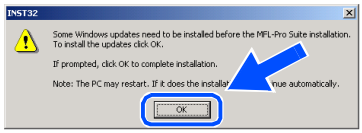
2. Turn on your computer.
(For Windows® 2000 Professional/XP, you must be logged on as the administrator.)

3. Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the model name screen appears select the DCP. If the language screen appears, select your language.

4. The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

*If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

*If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed your PC may restart. Note: If it does the installation will automatically continue.*

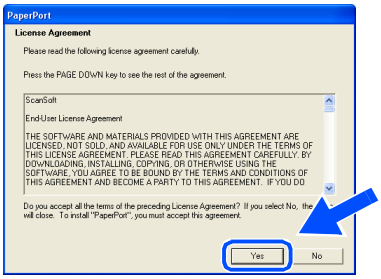


*If the installation does not continue automatically, please open the installer menu again by double-clicking the **setup.exe** program from the root directory of the Brother CD-ROM, and continue from Step 4.*

Continued ...

For Parallel Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

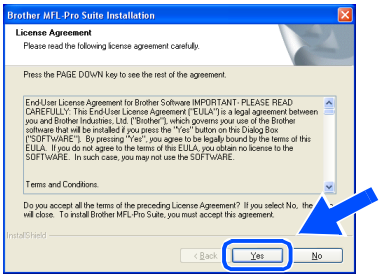
5 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.



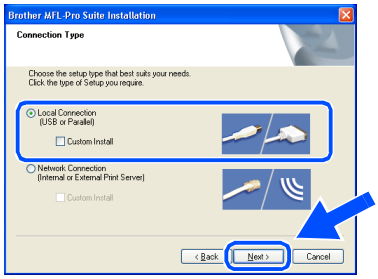
6 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

*If an error message appears during the installation process, you can repair and reinstall the software. From the CD menu, select **Repair MFL-Pro Suite** and follow the instructions on the screen.*

7 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.



8 Select **Local Connection**, and then click **Next**.
The installation will continue.



*If you want to install the PS driver, select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.*

For Windows NT® Workstation Version 4.0 Users

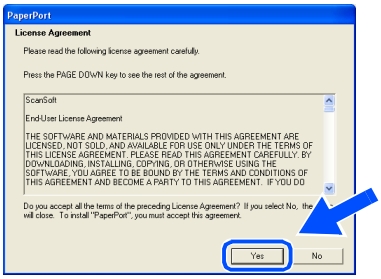
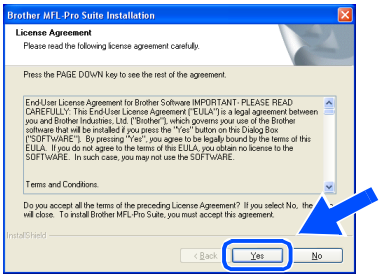
6 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.



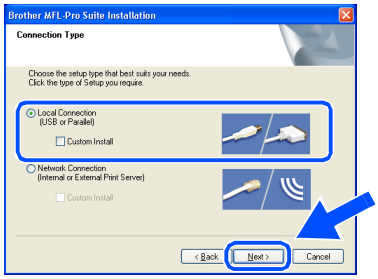
7 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

*If an error message appears during the installation process, you can repair and reinstall the software. From the CD menu, select **Repair MFL-Pro Suite** and follow the instructions on the screen.*

8 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.

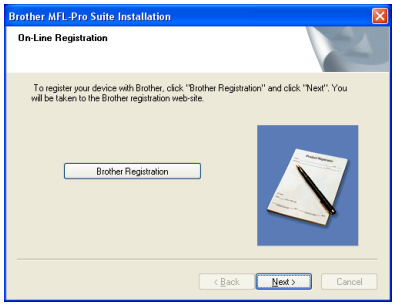


9 Select **Local Connection**, and then click **Next**.
The installation will continue.

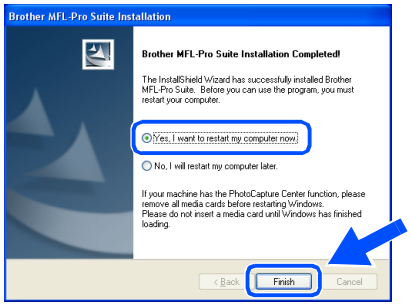


*If you want to install the PS driver, select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.*

10 When the Brother on-line Registration screen is displayed, make your selection and follow the on-screen instructions.



11 When the following screen appears, click **Finish** and wait as the PC restarts Windows and continues the installation.



OK! **The MFL-Pro Suite, Printer driver and Scanner driver have been installed and the installation is now complete.**

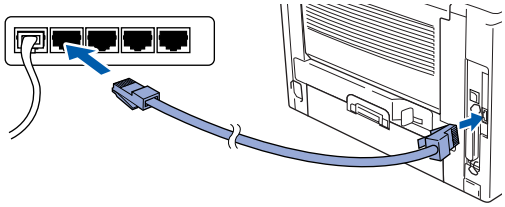
For Network Interface Cable Users (For Windows® 98/98SE/Me/NT/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

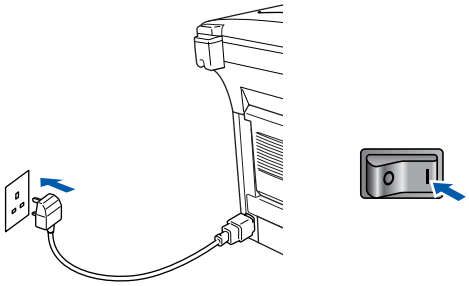
Before installation, if you are using Personal Firewall software, disable it. Once you are sure that you can print, re-start your Personal Firewall software.

1. Make sure that the NC-9100h (Network Print/Fax Server) is installed into the DCP. (See "*Optional accessories*" in Chapter 8 of the User's Guide.)

2. Connect the network cable to the DCP, and then connect it to a free port on your hub.



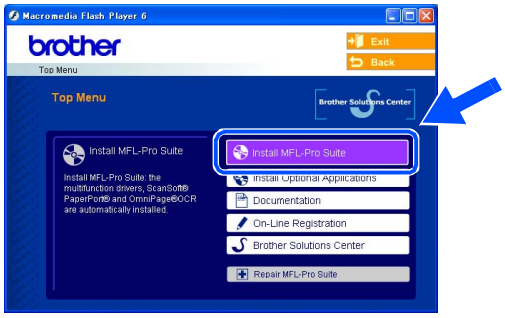
3. Plug in the power cord and turn on the DCP.



4. Turn on your computer. (For Windows® 2000 Professional/XP/ Windows NT® 4.0, you must be logged on as the administrator.)

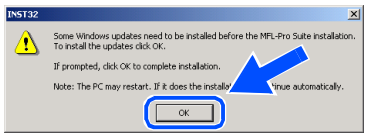
5. Insert the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, select the DCP. If the language screen appears, select your language.

6. The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.



*If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

*If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed your PC may restart. Then the installation will automatically continue.*



*If the installation does not continue automatically, please open the main menu again by ejecting then reinserting the CD-ROM disc or double-click the **setup.exe** program from the root directory, and continue from Step 6 to install the MFL-Pro Suite.*

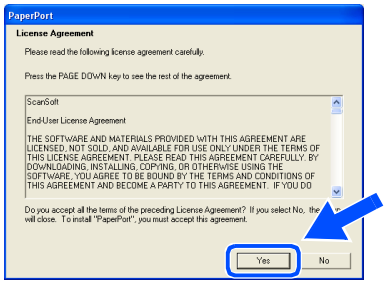
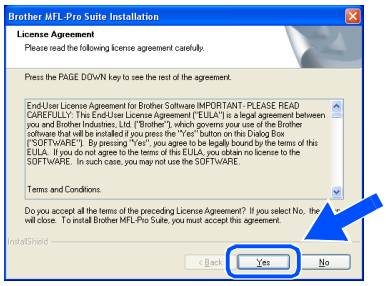
For Network Interface Cable Users (For Windows® 98/98SE/Me/NT/2000 Professional/XP)

7 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.

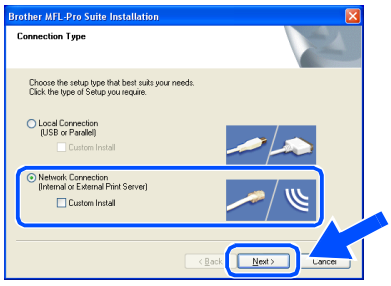


8 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

9 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.



10 Select **Network Connection**, and then click **Next**.



*If you want to install the PS driver, select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.*

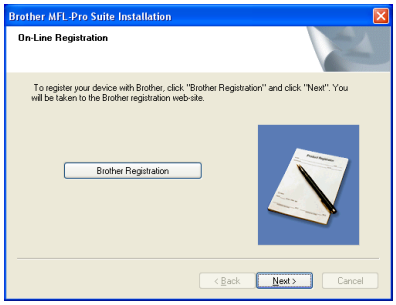
11 The installation of the Brother drivers will automatically start. The installation screens appear one after another, please wait for a while.

12 If the DCP is configured for your network, select the DCP from the list, and then click **Next**.

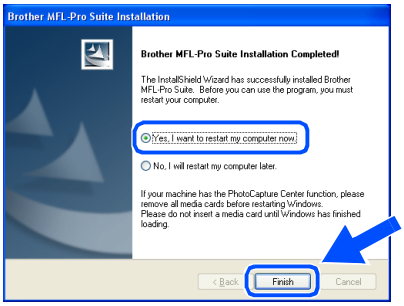
This window will not appear if there is only one machine connected on the network, it will be selected automatically.

If the DCP is not yet configured for use on your network, the **Configure IP Address** window will appear. Enter the IP address information appropriate to your network by following the on-screen instructions.

13 When the Brother on-line Registration screen is displayed, make your selection and follow the on-screen instructions.



14 When the following screen appears, click **Finish** and wait as the PC restarts Windows and continues the installation.



OK! **The MFL-Pro Suite, Network Printer driver and Network Scanner driver have been installed and the installation is now complete.**

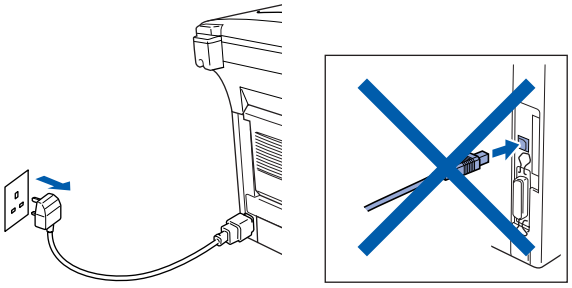
Network Scanning is not supported in Windows NT®.

For USB Interface Cable Users

For Mac OS® 8.6 to 9.2

Make sure that you have completed the instructions from Step 1 “Setting Up the Machine” on pages 2 - 5.

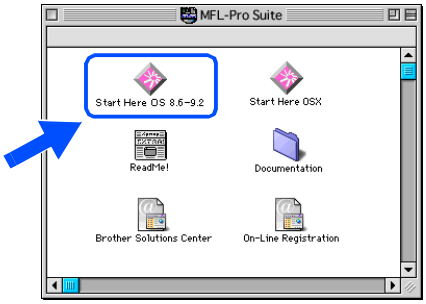
1. Disconnect the machine from the power socket and from the Macintosh®, if you have already connected an interface cable.



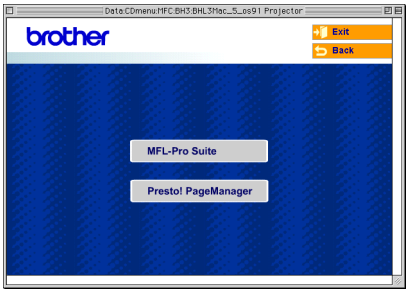
2. Turn on your Macintosh®.

3. Insert the supplied CD-ROM into your CD-ROM drive.

4. Double-click the **Start Here OS 8.6-9.2** icon to install the printer and scanner drivers. If the language screen appears, select your language.

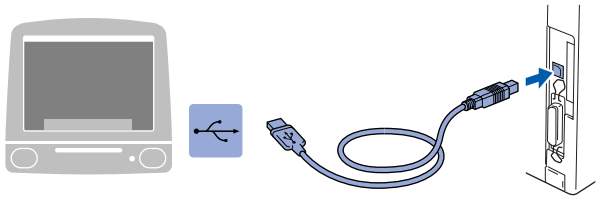


5. Click **MFL-Pro Suite** to install.



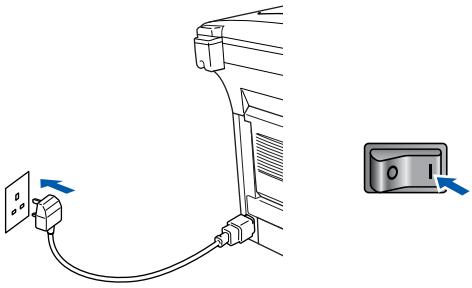
6. Follow the on-screen instructions, and restart your Macintosh®.

7. Connect the USB interface cable to your Macintosh®, and then connect it to the DCP.



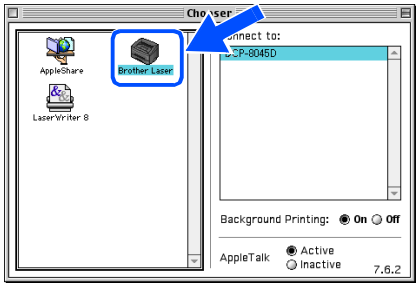
DO NOT connect the DCP to a USB port on a keyboard or a non powered USB hub.

8. Plug in the power cord and turn on the DCP.



9 From the Apple® menu, open the **Chooser**.

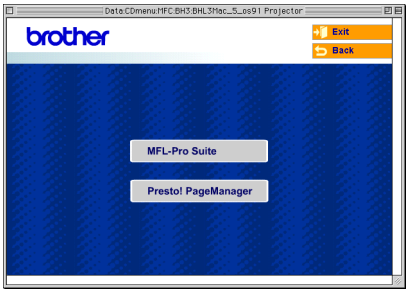
10 Click the **Brother Laser** icon you installed. On the right side of the **Chooser**, select the printer to which you want to print. Close the **Chooser**.



OK! **The MFL-Pro Suite, Printer driver and Scanner driver have been installed.**

ControlCenter2.0 is not supported in Mac OS® 8.6 to 9.2.

11 To install Presto!® PageManager®, click the **Presto! PageManager** icon and follow the on-screen instructions.



You can easily scan, share and organize photos and documents using Presto!® PageManager®.

OK! **Presto!® PageManager® has been installed and the installation is now complete.**

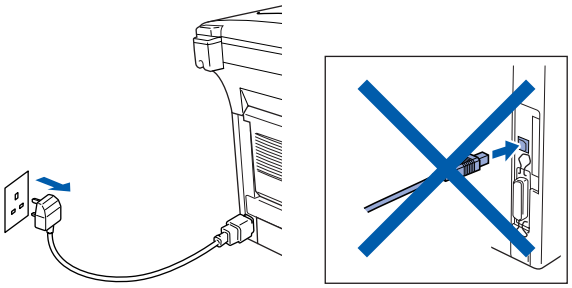
For USB Interface Cable Users

For Mac OS® X 10.1/10.2.1 or greater

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

For Mac OS® X 10.2.0 user, please upgrade to Mac OS® X 10.2.1 or greater. (The latest information for Mac OS® X, please visit at: http://solutions.brother.com)

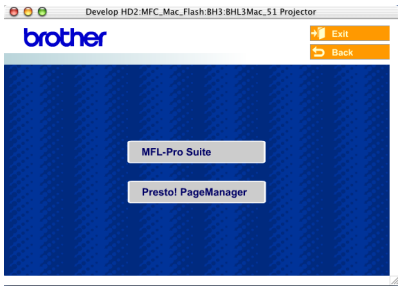
1. Disconnect the DCP from the power socket and from the Macintosh®, if you have already connected an interface cable.



2. Turn on your Macintosh®.
3. Insert the supplied CD-ROM into your CD-ROM drive.

4. Double-click the **Start Here OSX** icon to install the printer driver, Scanner driver and Remote Setup program. If the language screen appears, select your language.

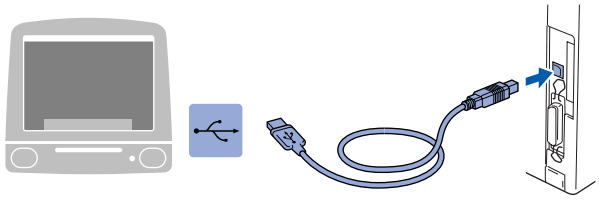
5. Click **MFL-Pro Suite** to install.



6. Follow the on-screen instructions, and restart your Macintosh®.
7. After the **DeviceSelector** window appears, connect the USB interface cable to your Macintosh® and then to the machine.

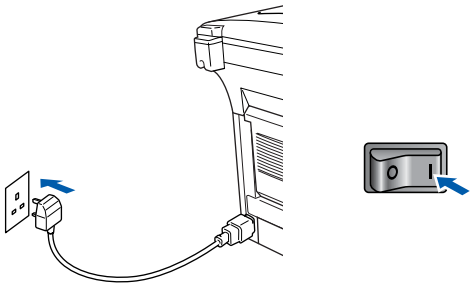
*The **DeviceSelector** window will not appear if the USB interface cable has been connected before restarting your Macintosh® or if you are overwriting a previously installed version of the Brother Software. If you encounter this problem continue with the installation skipping step 10 and then see the Software User's Guide Chapter 7 for details on selecting what machine the ControlCenter2.0 will connect with.*

8. Connect the USB interface cable to your Macintosh®, and then connect it to the DCP.



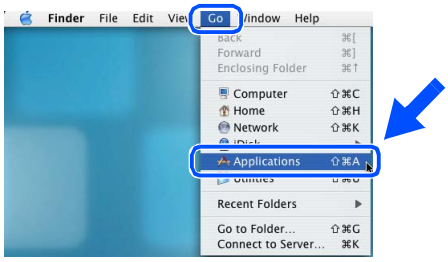
DO NOT connect the DCP to a USB port on a keyboard or a non powered USB hub.

9. Plug in the power cord and turn on the DCP.



10 Select **USB** and then click **OK**.

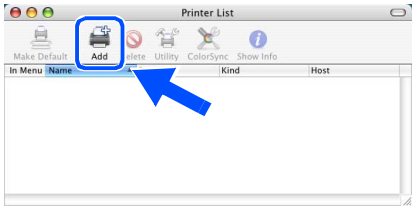
11 Select **Applications** from the **Go** menu.



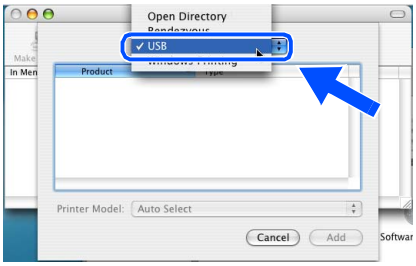
12 Open the **Utilities** folder.

13 Open the **Print Center** icon.

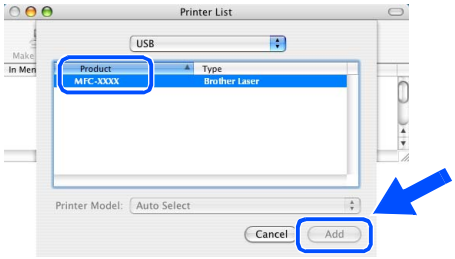
14 Click **Add**.



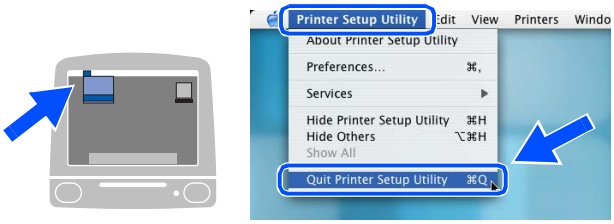
15 Select **USB**.



16 Select **DCP-XXXX** (XXXX is your model name), and then click **Add**.



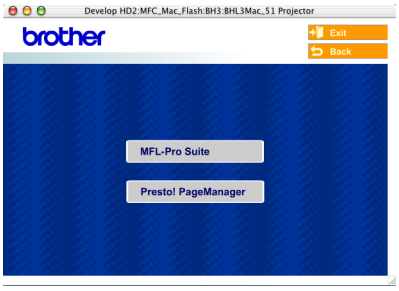
17 Select **Quit Printer Setup Utility** from the **Printer Setup Utility** menu.



OK! **The MFL-Pro Suite, Printer driver, Scanner driver and Remote Setup Program have been installed and the installation is now complete.**

Scanning and ControlCenter2.0 is not supported in Mac OS® X 10.1.

18 To install Presto!® PageManager®, click the **Presto! PageManager** icon and follow the on-screen instructions.



You can easily scan, share and organize photos and documents using Presto!® PageManager®.

OK! **Presto!® PageManager® has been installed and the installation is now complete.**

For Network Interface Cable Users

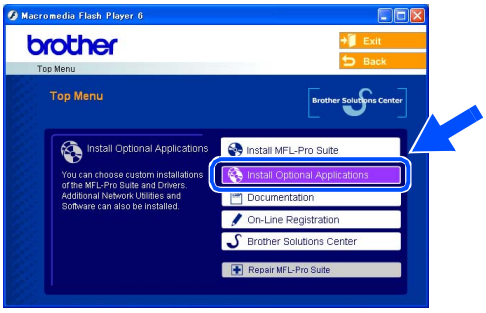
Installing the BRAdmin Professional Configuration Utility (Windows® Users Only)

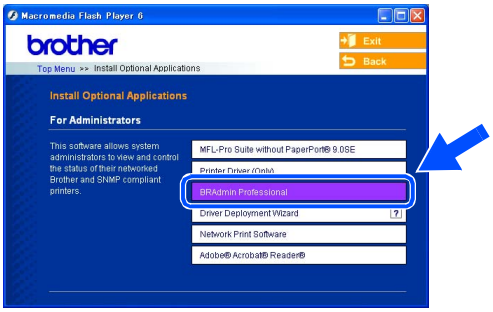
The BRAdmin Professional utility is designed to manage your Brother network connected devices such as network-ready Multifunction devices and/or network-ready printers in a Local Area Network (LAN) environment.
BRAdmin Professional can also be used to manage devices from other manufacturers whose products support SNMP (Simple Network Management Protocol).
For more information on BRAdmin Professional go to http://solutions.brother.com

1. Insert the supplied CD-ROM into your CD-ROM drive. The opening screen will appear automatically.
   Follow the on-screen instructions.

2. Click the **Install Optional Applications** icon on the main menu screen.



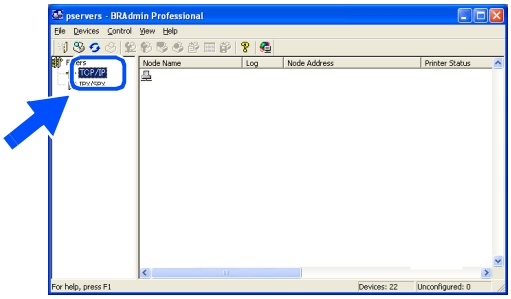
3. Click **BRAdmin Professional** and follow the on-screen instructions.



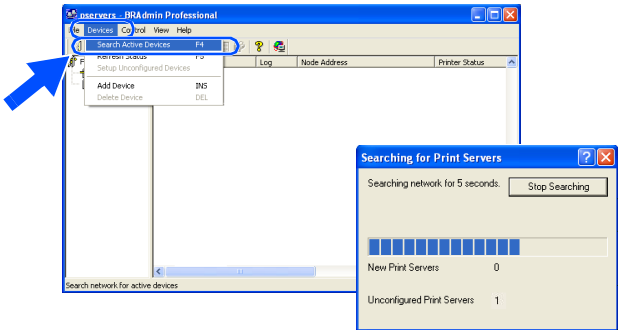
*The default password for the print server is "**access**". You can use BRAdmin Professional or a web browser to change this password.*

Setting your IP Address, Subnet Mask and Gateway using BRAdmin Professional (Windows® Users Only)

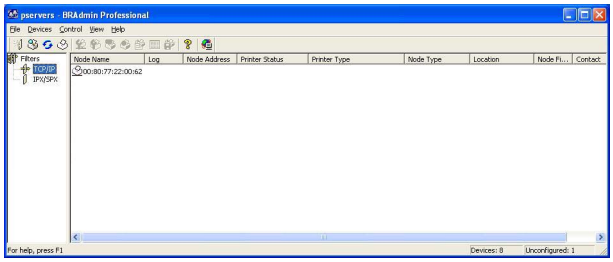
1. Start BRAdmin Professional, and select **TCP/IP**.



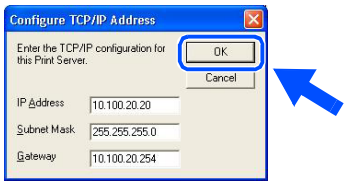
2. Select **Search Active Devices** from the **Devices** menu.
BRAdmin will search for new devices automatically.



3. Double-click the new device.



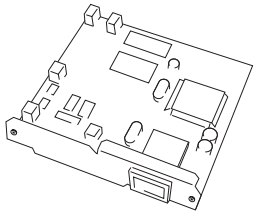
4. Enter the **IP Address, Subnet Mask** and **Gateway**, and then click the **OK** button.



5. The address information will be saved to the printer.

Options

The DCP has the following optional accessories. You can expand the capabilities of the DCP by adding these items.

Lower Tray Unit	DIMM Memory
LT-5000	
	Second lower paper tray expands total input capacity by another up to 250 sheets to a total input capacity of up to 500 sheets.	For more details, see “Memory Board” in Chapter 8 (User’s Guide).
Network Print/Fax Server	**External Wireless Print/Scan Server**
NC-9100h	**NC-2200w**
	


The optional Network Print Server (NC-9100h) transforms your DCP into a Network Multi Function Center, offering Network Printing and Network Scanning capability.	The optional External Wireless Print/Scan Server (NC-2200w) provides wireless (IEEE 802.11b) network printing and the network scanning capability.

Replacement Consumables

Drum Unit	Toner
DR-3000	**TN-3030 / TN-3060**
	Up to 20,000 A4/Letter pages 5% coverage	TN-3030: up to 3,500 A4/Letter pages 5% coverage TN-3060: up to 6,700 A4/Letter pages 5% coverage
