

- ⌚ Hands-free USB Speakerphone
- ⌚ Compatible with all soft phone clients including Skype, iChat, MSN Messenger, SIP Softphones and others
- ⌚ Convenient microphone mute button
- ⌚ Uses latest Digital Signal Processing (DSP) technology for echo-free calls
- ⌚ Easy to install

The NetComm V35 is a simple to install, easy to use, portable USB hands-free speakerphone for all VoIP or instant messaging clients such as Skype, SIP Softphones, MSN, iChat and Windows or Yahoo Messenger. The V35 has been designed and crafted to be durable and portable without sacrificing any audio performance. By utilising the latest DSP technology, the V35 delivers high quality echo free voice calls.

The NetComm V35 can be used by both home and business users alike for convenient and cost-effective VoIP conference calls. Now the whole family can call friends and relatives overseas and participate in the call. Alternatively, business users can hold cost-effective nter-office conference calls for meetings and avoid costly travel bills.
