

LCD TV/Monitor Tilting Mount - 10" to 26"

Installation Instructions

Hardware

Tools Required: Electronic stud finder, #2 Phillips head screw driver, drill, 1/8" drill bit (wood stud installation), 3/8" masonry drill bit (concrete/brick wall installation).

Step 1: Wall Plate Installation

Wood Stud Installation

- 1 Use a high-quality electronic stud finder (commercially available) to locate dead center of the wood stud and mark the location with a pencil.
- 2 Hold the wall plate (Figure 1) to the wall, use the two mounting holes to mark the locations to be used for mounting the wall plate.
- 3 Take down the wall plate and drill two 2" deep holes, using a 1/8" drill bit at the positions you've marked.
- 4 Attach the wall plate to the wall again and insert the bolts (A) and washers (D) into the holes (Figure 1) and tighten.

Figure 1

Figure 2

Concrete/Brick Wall Installation

- 1 Hold the wall plate (Figure 2) to the wall, use the two mounting holes to mark the locations to be used for mounting the wall plate. Locate the holes directly into the brick, block or concrete, never into the mortar between the blocks.
- 2 Pre-drill two holes to a depth of 2" using a 3/8" masonry drill bit at the positions you've marked and insert one concrete anchor (B) into each hole.
- 3 Position the wall plate onto the wall again and insert the bolts (A) and washer (D) into the anchor as shown (Figure 2) and tighten.

Step 2: Display Plate Installation

- 1 Place your TV screen down on a soft, flat surface, and locate the threaded mounting points that are located on the back of the display.
- 2 According to the size of the display's hole, choose the corresponding screw (E/F/G) and washer (C) and insert into the hole as shown (Figure 3) and tighten.

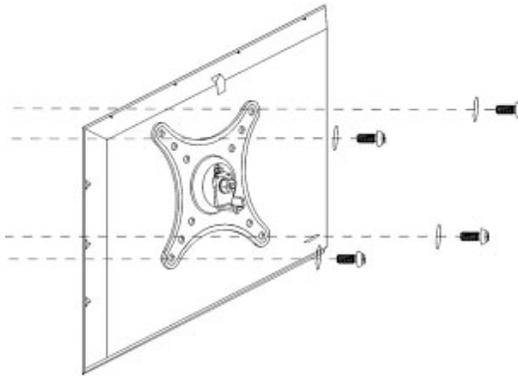

Figure 3

Step 3: Final Installation

- 1 Hang the display plate onto the top of the wall plate and slip it into the wall plate as shown (Figure 4).
- 2 Tighten the safety screw on the side and back using a Phillips head screw driver and the supplied 4mm Allen Key (Figure 5 & Figure 6 respectively).
- 3 Adjust the tension of the joint using the supplied 6mm Allen Key (Figure 7).
