PT960DP

GE Profile™ 30" Built-In Double Convection Wall Oven

Features and Benefits

- Glass Touch LCD Controls - Combine a smooth, easy-to-clean glass design with large, easy-to-read graphics to facilitate easier usage
- PreciseAir™ Convection System - A reversing fan circulates heat and air for evenly browned and baked foods
- Self-clean Roller Rack - This self-clean rack glides on stainless steel ball bearings to simplify loading and unloading
- Convection Bake - This setting is optimal for baking casseroles or lasagnas, yeast breads, pies and pizzas with no need to turn the pan
- Convection Roast - Optimal for larger cuts of meat, this setting rotates the heat around all sides, sealing in the juices, producing rotisserie results at up to 25% faster than a conventional oven
- Flat back Convection - Convection fan system is only 1" deep to provide additional room for cookware
- Hidden Bake Oven Interior - Conceals the lower oven bake element to eliminate hard-to-reach areas that collect food and spills for easy cleaning
- Self-clean Oven - Self-clean allows you to spare yourself from the trouble and effort it takes to scrub the oven interior. The oven does all the work!
- Dual Interior Lighting - Bright interior lights help you check on the progress of your cooking
- Self-clean Heavy-duty Oven Racks - Tough, double-coated racks can stay in the oven during the self-clean cycle to eliminate hand cleaning
- Model PT960DPBB - Black on black
