

CASSIOPEIA EG-800

Quick Start Guide

CASIO

PN411454-001 MO0103-000505B Printed on recycled paper. Printed in Japan

Congratulations on your purchase of the CASSIOPEIA. This Quick Start Guide will help you set up your Pocket PC and familiarize yourself with how it works.

- Perform the setup procedures to set up your CASSIOPEIA before doing anything else!
- Be sure to read the Safety Precautions contained in the *Hardware Manual* before using your CASSIOPEIA.
- Keep this Guide in a safe place for future reference.

Getting Started

What's in the Box?

Check to make sure that all the items listed below are included.

- Soft Case
- Microsoft® ActiveSync® CD-ROM
- CASSIOPEIA CD-ROM

The *Pocket PC User's Guide* is included in digital form as PDF files on the CASSIOPEIA CD-ROM. See the separate *Using the CASSIOPEIA CD-ROM* and *Hardware Manual* first.

Stylus Operation

- **Tap.**
Touch the screen once with the stylus to open items and select options.
- **Drag.**
Hold the stylus on the screen and drag across the screen to select text and images. Drag in a list to select multiple items.
- **Tap-and-hold.**
Tap and hold the stylus on an item to see a list of actions available for that item. On the pop-up menu that appears, tap the action you want to perform.

4 Perform a Full Reset (Memory Initialize).

- ① While holding down the [Power] button, use the stylus to hold down the RESET button for about two seconds.
 - This causes the following message to appear on the display screen.

"Proceeding with this operation initializes memory. Press [Action] to proceed or [Record] to cancel."

- ② Press the [Action] control.
 - This causes the following message to appear on the display screen.

"Proceeding with this operation deletes all data stored in memory. Press [Action] to proceed or [Record] to cancel."

- ③ Press the [Action] control again.
 - This starts the full reset operation, which deletes all data in memory.
 - After a few moments the welcome screen appears.

5 Follow the steps in the Welcome Wizard.

6 When finished, you'll see the Today screen.

- See "Pocket PC Basics" at the back of Quick Start Guide for information about the Today screen and other Pocket PC Basics.
- You also need to install ActiveSync before you can communicate with a desktop computer.

⚠ Important

- If the touch panel does not respond when you tap it or if nothing appears on the display, try performing a full reset.
- If the message "A problem with memory contents has been found..." appears on the display, perform a full reset.
- See the *Hardware Manual* for information on performing a full reset.
- See the *Hardware Manual* for important information about replacing batteries.

General Guide

Setting Up Your Pocket PC

1 Load the main battery(rechargeable battery pack).

Be sure to use the AC Adapter to charge the rechargeable battery pack before doing anything else.

- ① Insert the bottom edge of the battery pack into the groove at the bottom of the battery compartment, and then swing the top of the battery pack into place.

- ② Rotate the battery lock clockwise to secure the battery pack in place.

2 Use the AC Adapter to charge the battery pack.

- Connect the AC Adapter to the CASSIOPEIA as shown in the illustration.

- Charging starts automatically as soon as you connect the AC adapter to the CASSIOPEIA.
- The charge indicator is amber while charging is in progress, and turns green when charging is complete.
- An M Type battery pack takes about five hours to reach full charge. Charging the battery pack also charges the backup battery.
- The time required to reach full charge may be longer the first time you charge the battery pack after purchasing it.

Remove the AC Adapter from the CASSIOPEIA after charging is complete.

3 Press the [Power] button.

About the [Action] Control

Operations can be performed by pressing and rotating the [Action] control.

See Pocket PC online help for information about using the [Action] control with each application. The text in the online help indicates an [Action] control press operation as "Action," and an [Action] control rotate operation as "Up/Down control."

Adjusting Display Contrast

To do this:	Perform this operation:
Make contrast darker	[Action] + Cursor up
Make contrast lighter	[Action] + Cursor down
Increase brightness	[Action] + Cursor right
Decrease brightness	[Action] + Cursor left

Installing ActiveSync to Communicate with a Desktop Computer

Installing ActiveSync makes it possible for your CASSIOPEIA to communicate with a desktop computer and perform the following tasks.

- Data synchronization for Calendar, Contacts, Tasks, Inbox, Channels, etc.
- Backup of CASSIOPEIA data
- Copying of files between the CASSIOPEIA and a desktop computer

See the ActiveSync online help for detailed information about how to perform these operations.

Installing ActiveSync Using the Cradle

- 1 After making sure your computer is turned off, connect the cradle to the USB port of your computer.

- 2 Turn on your desktop computer and wait as Windows starts up.

- 3 Insert the ActiveSync CD-ROM into your computer's CD-ROM drive.

4 Follow the instructions that appear on your computer screen to install ActiveSync.

- What happens next depends on whether your computer already has Windows CE Services installed.
- ◊ In most cases, the "Get Connected" dialog appears after ActiveSync is installed.
- ◊ The "Get Connected" dialog does not appear if your computer already has Windows CE Services installed. Click [Finish] and advance to the next step.

5 Turn off your CASSIOPEIA and place it onto the cradle. Make sure the CASSIOPEIA seats securely onto the cradle.

6 ActiveSync automatically locates the port where CASSIOPEIA is connected and configures the communication port.

- Depending on how the CASSIOPEIA is connected to your computer, you may be required to click the [Next] button before ActiveSync starts the above step. Follow the instructions that appear on your computer screen.

7 Use the dialog that appears to make the settings you want.

- At this point, if you want to continue working with your CASSIOPEIA, see the *Pocket PC User's Guide* and online help for guidance. Otherwise, turn off CASSIOPEIA power and remove it from the cradle.
- For more information on installing ActiveSync, see the booklet accompanying the ActiveSync CD.
- For information on how to transfer Palm-size PC data, see the *Pocket PC User's Guide*.

Installing ActiveSync Using the CASSIOPEIA USB Cable

1 Connect the CASSIOPEIA USB cable to your computer

2 Turn on your desktop computer and wait as Windows starts up.

3 Insert the ActiveSync CD-ROM into your computer's CD-ROM drive.

4 Follow the instructions that appear on your computer screen to install ActiveSync.

- What happens next depends on whether your computer already has Windows CE Services installed.
- ◊ In most cases, the "Get Connected" dialog appears after ActiveSync is installed.
- ◊ The "Get Connected" dialog does not appear if your computer already has Windows CE Services installed. Click [Finish] and advance to the next step.

5 After turning off your CASSIOPEIA, connect the CASSIOPEIA to your computer as shown in the illustration.

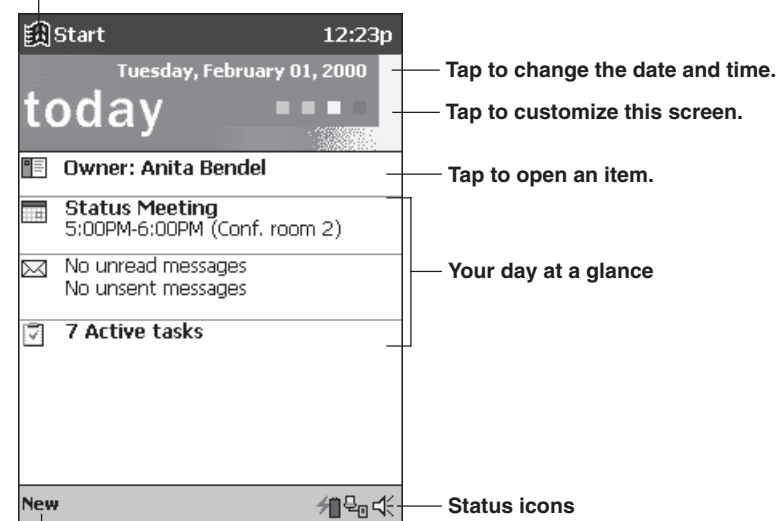

The remainder of this procedure is identical to steps 6 and 7 under Installing ActiveSync Using the Cradle.

Pocket PC Basics

The Today Screen

When you turn on your device for the first time each day (or after 4 hours of inactivity), you'll see the Today screen. You can also display it by tapping and then **Today**. On the Today screen, you can see at a glance the information you need for the day.

Tap to switch to a program.

Tap to create a new item.

Navigation Bar and Command Bar

The navigation bar is located at the top of the screen. It displays the active program and current time, and allows you to switch to programs and close screens. The command bar is displayed at the bottom of the screen. Use the menus and buttons to perform tasks in programs.

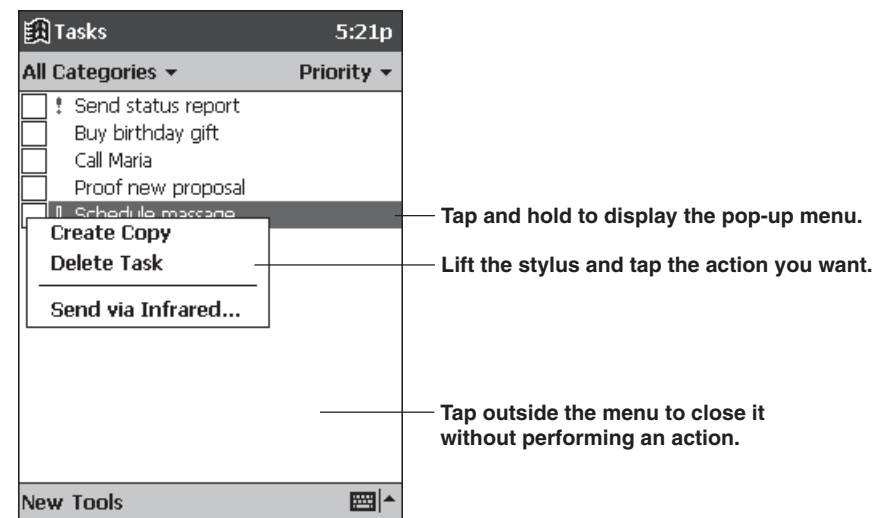

New button Input panel button

Pop-up Menus

With pop-up menus, you can quickly choose an action for an item.

Input Methods

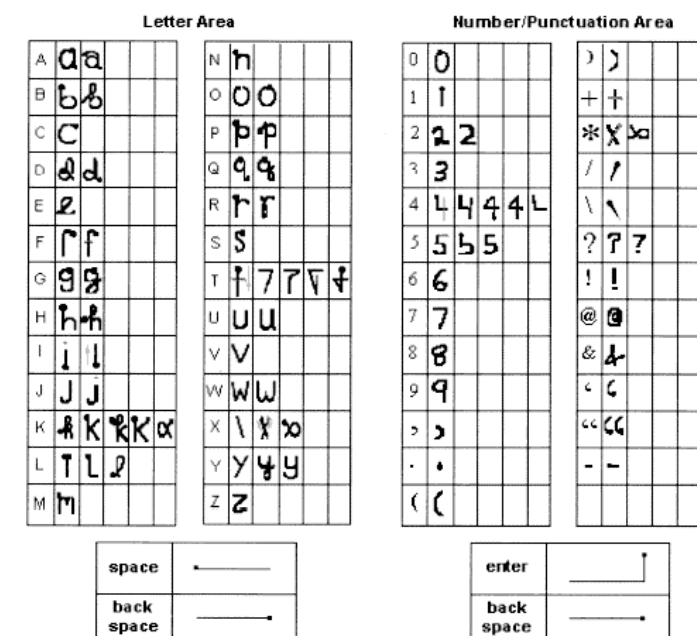

You can enter information in any program on your Pocket PC by typing with the software keyboard or writing using Character Recognizer.

The letter you write is converted to typed text that appears on the screen.

The Character Recognizer input panel is divided into three writing areas. Letters written in the left area (labeled **ABC**) will create uppercase letters and letters written in the middle area (labeled **abc**) will create lowercase letters. The right area (labeled **123**) is for writing numbers, symbols, special characters, and punctuation.

The following chart is a partial display of the characters you can write while in lowercase mode (the dot on each character is the starting point for writing). For more information on using Character Recognizer and for demos of all characters, tap on the Character Recognizer input panel.
