

Floating LED wax tea lights

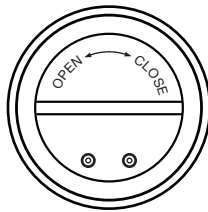

water induction activated

lights
automatically turn
on when placed in water

Operating Instructions

1. These LED Tea Lights are activated by Water Induction. They automatically turn on when placed in water. When removed they turn off.
2. To replace the included button cell (CR2032) battery twist bottom of Tea Light counter clockwise. Replace battery and replace bottom cover.
3. Batteries last approximately 72 hours.
4. Great for decorating indoors or out.
