

Automatic Backup System - Rugged

The backup and storage system that's tough on the outside, sophisticated on the inside.

Whether you are working at home, or exposed to the elements, your valuable data could be lost in an instant from shock and/or vibration. The V2 ABS Rugged was designed for tough operating conditions. This sleek and portable backup and disaster recovery device will withstand up to 300G's of operating shock and over 1000G's of non-operating shock, so no matter how punishing your environment, you can remain confident your data is protected. From sub-zero temperatures or extreme heat, to high altitudes, the V2 ABS Rugged will keep on running.

But don't let the V2 ABS Rugged's toughness fool you. This backup solution is powered by the finest in backup and disaster recovery software. The included BounceBack Enterprise offers powerful AES 256 bit encryption in addition to time-saving Continuous Data Protection (CDP) features, and our unique native file bootability that makes creating a "Spare System Drive" effortless.

V2 ABS Rugged Protects Your Data in Many Ways

- Protects your data from Shock and Vibration
- Protects your data from extreme Cold and Heat
- Protects your data from extreme Humidity
- Protects your data in extreme High Altitudes
- Protects your data with AES 256 bit Encryption
- Protects your data with the World's Easiest Backup software

Features:

Data Backup

The ABS-Rugged includes CMS Products BounceBack Enterprise Version 8.0 backup and restore software. With powerful new features such as Continuous Data Protection, and Multi-Destination backup paths and file level AES 256 encryption, BounceBack Enterprise 8.0 is the perfect solution for managing your backups.

Ruggedized

Shock Tolerance of 1000G's (non-operating), 300G's (operating) built to withstand harsh environments, tolerates temperatures (non-operating) as low as -40C to as high 95C and high humidity 95%.

Easy to Use

The ABS-Rugged is the latest in the CMS Products line of external USB 2.0 disk solutions, with a capacity of 80GB. The included BounceBack Enterprise software offers a sleek intuitive interface coupled with powerful AES 256 bit encryption.

Lightweight & Portable

Weighing only seven ounces, the ABS-Rugged is bus powered for transportability and is ultra-rugged with the inclusion of the CMS DataGuard shock absorbing sleeve.

Secure

The ABS-Rugged is ready to use right from the box. With AES 256-bit encryption, users can be confident that all data on the ABS-Rugged is safe and can be accessed only by its rightful owner.

Minimum System Requirements - Windows

- Intel Pentium or compatible processor
- 256 MB RAM
- Windows Vista, XP or 2000
- 67 MB available hard disk space
- Requires Internet connection for activation
- Interface: USB 2.0/1.1
- Contains SATA type notebook drive

Specifications

Product Description	ABS with SATA hard drive and USB 2.0 interface
Package Contents	ABS,cables, software CD, Quick Start Guide
Interface/Port	USB 2.0
Storage Capacity	80GB
Data Transfer Rate	3.0Gb/s internal ; 480Mb/s external
Rotational Speed	5400RPM
Seek Time	11ms
Buffer	8MB
Shock Tolerance	300G's operating/ 1000G's non-operating
Vibration	Operating: 2 G's Nonoperating: 5 G's
Humidity	Operating: 5 to 90% Nonoperating: 5 to 95%
Temperature	Operating: -30 to 85°C Nonoperating: -40 to 95°C
Power Requirements	
Input Voltage	5 Volts DC
Input Current	500mA
Frequency	N/A
Form Factor	External 2.5" hard drive
Dimensions	1.125" H x 5.0" L x 3.0" W
Shipping Dimensions	5.0" H x 10.0" L x 7.0" W
Weight	7 ounces
Certifications	FCC Class B/ RoHS
Operating Systems	
Windows	Vista, XP or 2000
Macintosh	NA
Standard Warranty	3 Years Limited
