

Induction Hybrid Cooktops

EW36CC55G S, EW36CC55G W, EW36CC55G B

10" and 6" Induction Elements

Boil water in 90 seconds with the 10" induction element, which offers 3,200 watts of power.

Power Assist™ Function

Generates rapid heat for a quick boil.

More Responsive

Induction is more responsive than a gas cooktop – you can instantly adjust the heat to a delicate simmer or bring to a quick boil.

Cookware Compatibility

Electrolux induction hybrid cooktops include a combination of electric elements that are compatible with all cookware, and induction elements that are compatible with most cookware — if a magnet sticks to the bottom of the pot or pan, it will work.

*Approved to be used over any Electrolux Single Wall Oven.

36" Induction Hybrid Drop-In Cooktop Specifications

- Product Weight – 62 Lbs.
- Single phase 3- or 4-wire cable, 120/240 or 120/208 Volt, 60 Hertz, fused on both sides of line with ground.
- Connected Load (kW Rating) @ 240/208 Volts = 9.9/8.4 kW
- Amps @ 240/208 Volts = 41.3/40.4 Amps
- Recommended Circuit Breaker – 40 Amps
- Always consult local and/or national electric codes.
- Allow 2" space below armored cable opening to clear electrical cable and allow space for installation of junction box on wall at back of cooktop.
- Overhead cabinetry should not exceed a 13" maximum depth.
- Allow 30" minimum clearance between top of cooktop and bottom of unprotected wood or metal overhead cabinetry.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.
- Allow 24" minimum clearance when bottom of wood or metal overhead cabinet is protected by not less than 1/8" flame-retardant millboard covered with not less than No. 28 MGS sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper.
- Allow 2" minimum clearance between rear edge of cutout and nearest combustible surface above countertop.
- Allow 7-1/2" minimum clearance from edge of cooktop to nearest combustible wall on either side of unit.
- It is recommended that drawers not be used beneath cooktop.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.
- Induction Hybrid Drop-In Cooktop model EW36CC55G is approved to be used over any Electrolux Single Wall Oven.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.com for detailed instructions.
