

Philips  
Surge protector

**Resettable**

10 outlets

**SPP7356WC**

## Home theater

with Power Blocker 2 technology

Unlimited joules protects better than the highest joule-rated surge protectors on the market today. Denies power if any threat is present, then can be instantly reset to restore surge protection and operation..

### **Ideal for home theater systems**

- Phone line protection
- 2-line splitter
- 2 sets gold coax protection
- Power blocker 2 technology

### **Ultimate performance design**

- 10 child-safe outlets
- EMI/RFI noise filtration
- 100% Lightning Warranty
- \$1,000,000 connected equipment warranty

### **Built-in convenience**

- Instant reset switch
- Offset right-angle plug
- Protection indicator light
- Cord management system

**PHILIPS**  
sense and simplicity

Surge protector  
Resettable 10 outlets

## Specifications

### Outer Carton

- **Nett weight:** 5.565 lb
- **Gross weight:** 9.7 lb
- **Tare weight:** 4.135 lb
- **Outer carton (L x W x H):** 7.75 x 5 x 15.75 inch

### Packaging dimensions

- **Packaging dimensions (W x H x D):**  
7.25 x 16.25 x 2.25 inch
- **Nett weight:** 1.855 lb
- **Gross weight:** 2.6 lb
- **Tare weight:** .745 lb

SPP7356WC/17

## Product highlights

### Phone line protection

These connectors accommodate an RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

### 2-line splitter

These connectors route the telephone line through the surge protector and split the line to allow two devices to be connected. It offers the convenience of leaving two devices connected constantly even though they may not be used simultaneously.

### 2 sets gold coax protection

Gold-plated connectors route the coaxial signal through the surge protector to protect the line from surges and spikes. Allows two cable devices to be plugged into the same unit. Gold connectors act to reduce noise (snow, vertical lines, etc) in picture and keep data safer from devices with cable modems.

### Power blocker 2 technology

This circuit-breaker like switch senses an over voltage, then quickly and completely disconnects power to the connected equipment. It can be manually reset once the surge event is over to restore protection.

### 10 child-safe outlets

Safety slides provide a protective barrier that block the outlet so small objects cannot get in. Keeps children safer.

### EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data.

### 100% Lightning Warranty

Protects against lightning strikes 100% of the time. Connected equipment is warranted should it be damaged by lightning.

### Instant reset switch

This switch allows instant resetting of the surge protection, restoring protection and operation immediately. It eliminates downtime from having to purchase another surge protector.

### Offset right-angle plug

This flat and angled design conveniently directs the cord away from the lower outlet and allows furniture to sit more closely to the wall.

### Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

### Cord management system

Collects the power cords and directs them away from the device in an organized fashion to keep the area clutter-free.
