

*Hi-Speed USB 2.0 Drive*

# ***Store'n'Go***

***Professional***

Quick Start Guide

# Store 'n' Go PROFESSIONAL

## GETTING STARTED

- Remove Cap.
- Insert Store 'n' Go Professional into the USB port.

1 A slow light pulse means Store 'n' Go Professional is on, waiting for use.

2 A fast pulse means, data is being transferred.

**Do not remove Store 'n' Go Professional when light is flashing.**

## WINDOWS

### To Start Working

- Click on 'My Computer,' and then click on 'Removable disk'.

### To remove Store 'n' Go Professional

- To remove Store 'n' Go Professional, double click on the 'stop USB mass storage device' icon on the right hand side task bar.
- Remove Store 'n' Go Professional.

## APPLE MAC

### To Start Working

- Click on 'Untitled' drive icon.

### To remove Store 'n' Go Professional

- To remove Store 'n' Go Professional, drag the Store 'n' Go Professional icon into the trash.
- Remove Store 'n' Go Professional.

## Business Uses

- Save documents and presentations
- Back up important files
- Transfer files between computers
- Take your important files with you wherever you go

## Personal Uses

- Download books and music from the internet
- Transfer files between PCs and Apple Macintosh machines
- Collect email and keep passwords and account numbers
- Save mp3 and picture files

# SYSTEM REQUIREMENTS

## Hardware:

Store 'n' Go Professional plugs into any PC or Apple Macintosh with a USB port.

## Software:

No special software is required for systems running on Windows 2000, Windows Millennium Edition, Windows XP, Linux 2.6.0, and Macintosh OS 9.x, 10.x. For systems running Windows 98 driver files must be installed before using Store 'n' Go Professional for the first time.

A Windows 98 driver is available at our web site [www.verbatim-europe.com](http://www.verbatim-europe.com).

Note that earlier versions of windows including Windows 95 do not support USB Mass Storage Class Devices and consequently are not compatible with Store 'n' Go Professional.

## PRECAUTIONS

- When the indicator light is blinking rapidly, Store 'n' Go Professional is transferring data between itself and the host computer. Do not remove Store 'n' Go Professional until the light slows to a slow, regular pulse.
- Deactivate Store 'n' Go Professional before removing it from the USB port.
- Keep your Store 'n' Go Professional away from water, extreme moisture or heat.
- Keep your Store 'n' Go Professional away from electrostatic sources and magnetic fields.
- Store your Store 'n' Go Professional with its cap in place.
- Do not force Store 'n' Go Professional into the USB port. If the port resists smooth insertion of Store 'n' Go Professional, check that the device is positioned with the USB icon on top and that the port is free of obstructions.
