Wizz Stainless

Congratulations

on your purchase of your new Breville Hand Blender

BREVILLE RECOMMENDS SAFETY FIRST

We at Breville are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer, foremost in mind. In addition, we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions:

IMPORTANT SAFEGUARDS

- Do not immerse cord, plug or motor unit of hand blender in water or any other liquid.
- The appliance is not intended for use by young children or infirm persons without supervision.
- Young children should be supervised to ensure they do not play with the appliance.
- Always use the appliance on a dry, level surface.
- Regularly inspect the supply cord, plug and actual appliance for any damage. If found damaged in anyway, immediately cease use of the appliance and return the entire appliance to the nearest authorised Breville Service Centre for examination, replacement or repair.
- Do not let the cord hang over the edge of a table or counter, touch hot surfaces, or become knotted.
- Do not place this appliance on or near a hot gas or electric burner, or where it could touch a heated oven.
- This appliance is for household use only. Do not use this appliance for anything other than its intended use. Do not use outdoors.
- Do not use this hand blender for anything other than food or beverage preparation.
- Keep hands, knives and utensils away from moving blades.
- Make sure motor and blade have completely stopped then switch off and unplug from outlet before disassembling.
- Do not touch blade or blade guard unless the unit is disconnected from the electrical supply.
- Do not blend a dry, thick or heavy mixture for more than 40 seconds without turning the blender off and stirring the ingredients before continuing to blend.
- Do not process boiling liquids; let cool before placing into the jug.

DO NOT IMMERSE THE MOTOR UNIT IN WATER OR ANY OTHER LIQUID

THE PROCESSING BLADE IS EXTREMELY SHARP, HANDLE WITH CARE.

TO CRUSH ICE – PLACE 1 CUP OF ICE CUBES INTO THE STAINLESS STEEL JUG. USING HIGH SPEED PUSH THE CUTTING BLADES ONTO THE ICE AND PROCESS UNTIL A SNOWY TEXTURED IS ACHIEVED.

BREVILLE RECOMMENDS SAFETY FIRST cont'd

- Do not operate the blender continuously on heavy loads for more than 40 seconds.
- The installation of a residual current device (safety switch) is recommended to provide additional safety protection when using electrical appliances. It is advisable that a safety switch with a rated residual operating current not exceeding 30mA be installed in the electrical circuit supplying the appliance. See your electrician for professional advice.

KNOW YOUR WIZZ STAINLESS

2 speed push button control

Stylish stainless steel exterior

Powerful 450 watt motor

Detachable stainless steel shaft for easy cleaning

High performance blade design crushes ice in seconds

700ml stainless steel mixing jug for blending and measuring

OPERATING YOUR WIZZ STAINLESS

BEFORE FIRST USE

Remove any packaging and promotional labels. Remove the blending shaft from the Wizz Stainless motor unit and wash in warm soapy water, then rinse and dry thoroughly making sure there are no remains of water that can run into the motor section.

TO REMOVE THE BLENDING SHAFT

Switch off appliance at the power outlet and unplug. Unscrew the shaft from the motor unit in a clockwise direction (Fig A).

TO ATTACH THE BLENDING SHAFT

Screw the shaft into the motor unit in an anti-clockwise direction. Ensure shaft is dry with no water left inside before reattaching.

1. Place foodstuffs to be processed into the stainless steel jug provided, a sufficiently large mixing bowl or saucepan. The mixing jug supplied should not be more than 1/2 full when mixing liquids or when making a puree of fruit and/or vegetables. For food preparation tips and recipes refer to pages 8-16.
2. Insert the plug into a 230/240V power outlet and turn the power on.
3. Dip the blade shaft as deeply possible into the stainless steel jug and depress either the High or Low speed control button to turn the blender on.
4. Work through the foodstuff with a gentle raising and lowering motion.
5. Switch off the motor before lifting the blender out of the mixing bowl or jug

NOTE!!

The Wizz Stainless has variable speed. To decrease speed press (L) and to increase speed press (H).

NOTE!!

The Wizz Stainless motor will only operate while the speed control switch remains depressed – this is safety feature.

THE PROCESSING BLADES ON THE HAND BLENDER SHAFT ARE EXTREMELY SHARP, HANDLE WITH CARE.

OPERATING YOUR WIZZ STAINLESS cont'd

NOTE!!

It is advisable to use the hand blender in short bursts, 'pulse' action. Do not use the hand blender continuously for more than 40 seconds, after which it should be allowed to cool down for 5 minutes.

RECOMMENDATIONS FOR THE WIZZ STAINLESS

- You will find the Wizz Stainless processes very fast, therefore it is easy to over process food. Remember to stop the Wizz Stainless and check food regularly.
- The stainless shaft on the Wizz Stainless allows for hot food to be processed directly in the saucepan. This makes blending soups and sauces very easy. For safety reasons remove saucepan away from the heat before processing.
- When pureeing and blending, cut food into uniform sizes, this will ensure smooth consistent results.
- Warm all liquids that are to be added to soups and purees, this will ensure even blending.
- Place the jug on a damp cloth or sponge during processing, this will keep the jug stable and prevent excessive movement.

If food becomes lodged in the blade guard, follow the safety instructions below.

1. Release the speed control, switch the power off at the power outlet and unplug the cord.
2. Use a spatula to carefully dislodge the food. Do not use fingers as the blades are sharp.
3. After the food has been removed, and blades are clear, plug the unit back into the power supply, switch the power on and continue processing.
