**WARNING:** The unit must not be exposed to excessive moisture, or heat.

**NOTICE:** The changes or modifications not expressly approved by the Coby Electronics Corp. could void the user's warranty.

**Warning:** To prevent the risk of fire or fuse damage, do not use the built in extra socket for a lighter or a similar use.

## Using a Wireless Transmitter

1. Connect the transmitter to the car, the power indicator will be lit. Connect the transmitter to the audio source.
2. Select the proper frequency for transmission by pressing “ < ” and “ > ”.
  - The range of available FM frequency is: 87.5 ~ 108MHz.
  - The LCD shows the current FM Frequency.
  - Each successive press of “ < ” will decrease the frequency by 0.1MHz.
  - Each successive press of “ > ” will increase the frequency by 0.1MHz.
  - The maximum transmission distance can be up to 4 meters.
  - The transmission distance differs depending on the sensitivity of the receiver you use .
3. Turn the frequency of your FM radio receiver to the same frequency as your transmitter.
4. Adjust the volume of your audio source to get good quality sound.
5. To turn the transmitter OFF, unplug the DC Car Kit.

## Specifications:

The range of FM Frequency is: 87.5 ~ 108MHz.

## Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Adjust or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Caution:** To assure continued compliance, any changes or modifications not expressly approved by the **Coby Electronic Corp.** may void the user's warranty. (Example-use only shielded interface cables when connecting to computer or peripheral devices).

**This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:**

1. This device must not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.
