

# Hover Input devices

**A battery-free, wireless optical mouse that uses induction technology and mousepad**

The newest technology offered by Dicota - the new notebook mouse Hover.

Electromagnetic induction is the key phrase with this mouse, with the introduction of uninterrupted and precise operation in any frequency range and with any notebook. With the help of RFID technology the notebook mouse is constantly supplied with eco-friendly energy via the mousepad. Long recharging times and irritating cables are a thing of the past.

The light weight mouse provides high-resolution surface scanning and exact operation.
