Important Safety Instructions

	220-240V 220- 240V				
Use only the power cord that comes with the printer. Use of another cord may cause fire or shock. Do not use the cord with any other equipment.	Make sure the power cord meets all relevant local safety standards.	Place the printer near a wall outlet where the power cord can be easily unplugged.	Use only the type of power source indicated on the label.	Do not let the power cord become damaged or frayed.	Do not open the scanner unit while copying, printing, or scanning.
Do not use aerosol products that contain flammable gases inside or around the printer. Doing so may cause fire.	Except as specifically explained in your documentation, do not attempt to service the printer yourself.	Keep ink cartridges out of the reach of children and do not drink the ink.	If ink gets on your skin, wash it off with soap and water. If it gets in your eyes, flush them immediately with water. If you still have discomfort or vision problems, see a doctor immediately.	Do not shake ink cartridges after opening their packages; this can cause leakage.	If you remove an ink cartridge for later use, protect the ink supply area from dirt and dust and store it in the same environment as the printer. Do not touch the ink supply port or surrounding area.

Guide to Control Panel

Control panel design varies by area.

*1 Paper with a weight of 64 to 90 g/m².

*2 30 sheets for paper that already has printing on one side.

Loading Paper

Open and slide out.

ก

Ø

See the online User's Guide when using Legal size paper.

Align the edges of the paper before loading.

Flip forward.

Load printable side up.

Fit.

Ø

Do not load paper above the **▼** arrow mark inside the edge guide.

Ø

Do not use paper with binder holes.

*Adapter required

!

If the memory card needs an adapter then attach it before inserting the card into the slot, otherwise the card may get stuck.

. .

Copying/Printing/Scanning

Copying Photos or Documents

Place original horizontally.

press the . Copy button.

Select Copy.

4 AUTO E 100% 0 0000 B&W Color ◀ / ►

Select a color mode.

AUTO + 100% 0 0000 B&W Color + / -

Set the number of copies.

6

Ø

To clear the number of copies,

Select paper type/size.

Ø

After step O, if you want to change the copy zoom, press the Opp button as shown in (1), and then use + or - to change the zoom manually as shown in (2). Or, press the \blacktriangleleft button to select AUTO to fit to your paper size.

Start copying.

Ø

You can speed up plain paper copying, however print quality declines. In step ♥, hold down ♦ button until the ♡ light starts flashing.

Select a photo.

+ / -

6

Set the number of copies.

Ø

To clear the number of copies, press the 🔊 button.

Ø

To select more photos, repeat steps 4 and 5.

0

Select 10×15/4"×6".

.....

.......

Start printing.

.

.

Printing Photos from an Index Sheet

You can print photos using an A4 index sheet. First print an index sheet, mark the photos that you want to print, and then scan the index sheet to print your photos.

Ø

4

All of the photos on the card are printed in groups of 30 thumbnails per index sheet. You may need several sheets of A4 plain paper.

2 □ → 12

on O
Сору 🛞 😧
Print photos
Index Sheet
scan 🔊

Load A4-size plain paper.

Insert a memory card.

Select Index Sheet.

3

Print the index sheet.

Check \blacktriangle aligns with the corner on the sheet.

Select a paper size.

Select border or borderless.

Select to print with a date stamp.

Select the number of copies.

Place the index sheet face-down.

Load the photo paper.

....

Print photos from the index sheet.

Ø

You can print photos on Ultra Glossy Photo Paper, Premium Glossy Photo Paper, or Premium Semigloss Photo Paper. Ø

If you have more than one index sheet, wait until printing is complete for the first sheet, and then repeat steps **1** to **2** to scan and print from each additional sheet.

. ...

Scanning to a Computer

Ø

Make sure you have installed software for this printer on your computer and connected following the instructions on the Start Here poster.

Place face down horizontally.

1

Select Scan.

2

Select an item.

Ø

After step (3), your computer's scanning software automatically starts scanning. For details, see the online User's Guide.

Maintenance

Checking/Cleaning the Print Head

1 □ → 11

Press both buttons at the same time.

6 6 4 i i i Printing... \bigcirc Nozzle check Cleaning is is complete. complete.] OK] Clean Head OK Check Cancel (5) \Diamond \bigcirc

2

Check the pattern.

Start head cleaning.

Finish head cleaning.

Ø

Print head cleaning uses ink from all cartridges, so clean the print head only if quality declines.

Ø

If it does not improve after cleaning four times, turn off the printer for at least six hours. Then try cleaning the print head again. If quality still does not improve, contact Epson Support.

. ..

Aligning the Print Head (1 ⊂ → 11 (2)

Load A4-size plain paper.

Press both buttons at the same time.

Select Head Alignment.

Select the most solid pattern.

Select the pattern number.

Enter the number.

Repeat **5** and **6** for all patterns.

Finish aligning the print head.

Replacing Ink Cartridges

- Ink Cartridge Handling Precautions
- Never move the print head by hand.
- □ Some ink is consumed from all cartridges during the following operations: print head cleaning and ink charging when an ink cartridge is installed.
- □ For maximum ink efficiency, only remove an ink cartridge when you are ready to replace it. Ink cartridges with low ink status may not be used when reinserted.
- Epson recommends the use of genuine Epson ink cartridges. Epson cannot guarantee the quality or reliability of non-genuine ink. The use of non-genuine ink may cause damage that is not covered by Epson's warranties, and under certain circumstances, may cause erratic printer behavior. Information about non-genuine ink levels may not be displayed, and use of non-genuine ink is recorded for possible use in service support.
- Make sure you have a new ink cartridge before you begin replacement. Once you start replacing a cartridge, you must complete all the steps in one session.
- □ Leave the expended cartridge installed until you have obtained a replacement. Otherwise the ink remaining in the print head nozzles may dry out.
- Do not open the ink cartridge package until you are ready to install it in the printer. The cartridge is vacuum packed to maintain its reliability.
- Other products not manufactured by Epson may cause damage that is not covered by Epson's warranties, and under certain circumstances, may cause erratic printer behavior.
- Do not turn off the printer during ink charging as this will waste ink.
- When an ink cartridge is expended, you cannot continue printing even if the other cartridges still contain ink.

Ø

To replace an ink cartridge before it is expended, press the **⊗ Index Sheet** and **≥ Scan** buttons at the same time to enter Setup mode. Then, use the **4** or **>** buttons to select **Ink Cartridge Replacement**, and then press the **◊ Start** button. Next, go to step **②** in the following instructions.

Open.

!

Never open the cartridge cover while the print head is moving.

Open.

Remove.

Shake new cartridge.

!

If you find it difficult to close the cover, press down on each cartridge until it clicks into place.

Close.

Start charging ink.

Ø

If you had to replace an ink cartridge during copying, to ensure copy quality after ink charging is finished, cancel the job that is copying and start again from placing the originals.

Paper Jam - jammed inside 1

Open.

Remove.

3

Close.

Ø

If paper still remains near the rear feeder, gently pull it out.

4

Press to resume printing.

Ø

If paper still remains near the rear feeder, gently pull it out.

Turn on.
