Product highlights

30 frames per second video

With a 30 frames per second refresh rate you will enjoy natural-looking and full motion video calls without jumpy images some webcams produce.

Super VGA resolution

The webcam captures Video Graphics Array (VGA) quality (640x480) snapshots and flicker-free video clips for video mails. With VGA resolution, your webcam becomes a professional level camera. Add high quality photos to documents, webpages and e-mails in an instant, or print out photo-quality images.

Automatic Picture Optimizer

The Automatic Picture Optimizer helps you get the most out of your webcam by automatically adjusting the camera and image settings to match the light available.

Rotating lens

Rotating lens for perfect aiming and natural images. You can get the right camera angle quickly and easily without having to put things underneath it to change the tilt.

Compatible with MSN and Skype

The webcam and its software have been designed with all messaging systems in mind. Add video to Skype, MSN Messenger, Yahoo!, AOL Messenger and other free messaging services. It also works with Windows Messenger and NetMeeting for multi-person video-conferencing and is designed to be future-proof.

Snapshot button

With just one press of this button, your webcam takes a picture automatically - ready for adding to e-mails, web pages or documents.

VLounge software basic

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will be able to create and send Video mails. This software package gives you all you need to take full advantage of your Philips webcam.

Black finish and slim line

This webcam will look great in any home or office. With its shiny black finish and sleek, slim line design, this webcam looks as good as it performs.

Stable mount

The multifunctional stand makes it easy for you to mount the webcam on any monitor, laptop, notebook or flat surface.

Pivot joint

Enjoy easy webcamming freedom with this handy pivot joint design. Just twist the camera 360° in any direction to film anywhere in your room without moving the webcam at all.

Standalone external microphone

With a separate external microphone, you have the freedom to place it where it best picks up your voice for relaxed on-line video chatting. Now you can add high quality audio to your video clips or web chats.

Installation manager

Install your webcam in seconds with the handy Installation Manager. Just follow the easy, step by step instructions and you'll have the webcam set up to match your computer perfectly.
