Step into the music...

A y r e **L-5xe** *AC power filter*

Take advantage of years of AC power filtering experience with the Ayre L-5xe. Our exclusive Ayre Conditioner dissipates high frequency interference as harmless thermal energy, delivering pure AC power to your system. Backgrounds become deeper and richer, and the music's ease and fluidity is revealed. Four independent outlets provide bidirectional filtering to fully isolate your components, including digital sources. Unrestricted current capability means unrestricted dynamics with even the most demanding amplifiers. Step up to a new level of coherency and resolution with an L-5xe.

Features:

- Individual filtering and grounding of each outlet
- No current limiting
- Ferrite-free construction
- Rhodium plated contacts

Specifications:

- Four individual outlets
- Modular IEC inlet
- 11.5 AWG internal conductors
- 17.25" W x 13.75" D x 2.38" H
- 12 pounds (5.5kg)
