Caution

Metra recommends disconnecting the negative battery terminal before beginning any installation. All accessories, switches, and especially air bag indicator lights must be plugged in before reconnecting the battery or cycling the ignition.

**NOTE: Refer also to the instructions included with the aftermarket radio.*

KNOWLEDGE IS POWER

Enhance your installation and fabrication skills by enrolling in the most recognized and respected mobile electronics school in our industry. Log onto www.installerinstitute.com or call 800-354-6782 for more information and take steps toward a better tomorrow.

Metra recommends MECP certified technicians

Dash Disassembly

1. Unclip and remove the shifter trim panel. (Figure A)
2. Unclip and remove the radio/climate control trim panel. (Figure B)
3. Unclip and remove the display trim panel above radio. (Figure C)
4. Remove (4) Phillips screws securing the radio.
5. Remove (4) Phillips screws securing the climate control to the factory trim panel.

Continue to kit preparation

(Figure C)

95-7339

Kit Preparation

1. Attach the climate control to the 95-7339 trim plate using the factory hardware. (Figure A)
2. Attach the (6) panel clips to the 95-7339 trim plate. (Figure B)

Continue to kit assembly

(Figure A)

(Figure B)

Kit Assembly 95-7339

Double DIN/stacked ISO DIN head unit provision

1. Locate the factory wiring harness in the dash. Metra recommends using the proper mating adapter from Metra or AXCESS. Re-connect the negative battery terminal and test the unit for proper operation.
2. Attach the Double DIN brackets to the aftermarket radio then mount the unit in the sub dash. (Figure A)
3. Reassemble dash in reverse order of disassembly using the 95-7339 trim panel instead of the factory trim panel.
