TOOLS REQUIRED FOR INSTALLATION

- 5/32” Allen wrench, security (provided)
- Phillips screwdriver

INSTALLATION

To install the finishing cover, do the following:

Assemble the Finishing Cover

Assemble the finishing cover, as follows:

NOTE: If security screws are used, use the 5/32” security Allen wrench (30).

1. Using three 10-24 x 3/8” pan head cap screws (40) or three 10-24 x 3/8” button head cap screws (50), attach the top cover (20) frame onto the pole mount cover (10). See Figure 2.
2. Repeat Step 1 to attach the bottom cover (20) frame to the pole mount cover (10).

Figure 2. Assemble the Finishing Cover

Install the Finishing Cover

Install the finishing cover, as follows:

1. Place the pole mount cover (10) over the pole mount and pole (see Figure 3).

NOTE: If security screws are used, use the 5/32” security Allen wrench (30).

2. Using two 10-24 x 3/8” pan head self-tapping screws (60) or two 10-24 x 1/2” sheet metal security screws (70), attach the assembled pole mount cover (10) to the mount at the top.
3. Repeat Step 2 to attach the assembled pole mount cover (10) to the mount at the bottom.
