

# User's Guide for EZ Crank™ Power Failure Flashlight

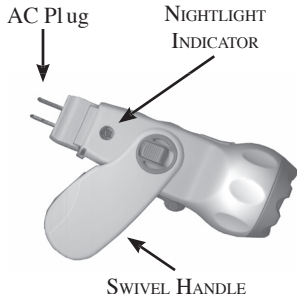

---

Congratulations for purchasing Excalibur's EZ Crank™ Power Failure Flashlight. Whether you're going to use it at home or while traveling, this multi-function light is the perfect tool in a blackout, car breakdown, or any other emergency. Featuring two convenient ways to recharge, this super-bright LED flashlight always works and never needs batteries! You'll want to keep several of these multi-tasking flashlights plugged in around the house.

## Special Features

- Convenient 2-ways to charge
- Built-in Ni-MH rechargeable battery
- Charge by plugging directly into any 120V AC outlet or by turning the EZ™ Crank handle
- Automatically turns on during a power outage
- Nightlight indicator
- Three super bright LED bulbs provide up to 80 minutes of continuous light
- Switch from single LED to triple LED lights with the flip of a switch

### Operating your Flashlight

Using Mode Select :

- Click the mode select switch once to make use of a single LED. This is useful to spotlight an area but don't want or need to use the maximum amount of light.
- Click the mode select switch one more time to activate all 3 LED lights, giving you the maximum amount of light and illumination.

To charge using an AC outlet:

1. Turn the swivel handle 90 degrees in order to expose the polarized plug.
2. Rotate the plug 90 degrees and insert directly into an standard 120V AC outlet.
3. Fully charge the unit for 24 hours.
4. Once fully charged, the flashlight will last approximately 80 minutes using the single LED light or 40 minutes using the triple LED lights.
5. When left plugged into the AC outlet with the ON/OFF switch set to the ON position, the flashlight will turn on automatically when there is a power outage.
6. The red nightlight will automatically turn on when the unit is plugged in.

To charge using the EZ Crank handle:

1. Lift the EZ Crank handle and turn clockwise.
2. Fully charge your flashlight by turning the EZ Crank

for approximately one hour at a speed of 120 revolutions per minute.

3. Once fully charged, the flashlight will last approximately 80 minutes using single LED light or 40 minutes using the triple LED lights.

Replacing the Ni-MH Rechargeable Battery

1. Using a flat head screw driver, remove the battery cover.
2. Disconnect the battery and replace with a new Ni-MH 3.6V 80mAh battery.
3. Replace the battery cover.

Special Care and Handling:

1. Avoid excessive humidity, moisture, and extreme temperatures. For best results, store the unit between the temperatures of 14° F and 122° F (-10° C and 50° C).
2. Do not immerse the unit in water.
3. Clean using only a damp cloth. Do not use any chemicals or solvents.

4. For stubborn stains and to maintain a bright, intensive beam of light, use a damp cloth with mild soap and water to clean the transparent bulb cover.

### 90-DAY LIMITED WARRANTY

EXCALIBUR ELECTRONICS, INC., warrants to the original consumer that its products are free from any electrical or mechanical defects for a period of 90 DAYS from the date of purchase. If any such defect is discovered within the warranty period, EXCALIBUR ELECTRONICS, INC., will repair or replace the unit free of charge upon receipt of the unit, shipped postage prepaid and insured to the factory address shown below.

The warranty covers normal consumer use and does not cover damage that occurs in shipment or failure that results from alterations, accident, misuse, abuse, neglect, wear and tear, inadequate maintenance, commercial use, or unreasonable use of the unit.

Removal of the top panel voids all warranties. This warranty does not cover cost of repairs made or attempted outside of the factory.

Any applicable implied warranties, including warranties of merchantability and fitness, are hereby limited to 90 DAYS from the date of purchase. Consequential or incidental damages resulting from a breach of any applicable express or implied warranties are hereby excluded. Some states do not allow limitations on the duration of LIMITED 90-DAY WARRANTY and do not allow exclusion of incidental damages, so the above limitations and exclusions in these instances may not apply. The only authorized service center in the United States is:

Excalibur Electronics, Inc.  
13755 SW 119th Ave  
Miami, Florida 33186 U.S.A.  
Phone: 305.477.8080  
Fax: 305.477.9516  
[www.ExcaliburElectronics.com](http://www.ExcaliburElectronics.com)

Ship the unit carefully packed, preferably in the original carton, and send it prepaid, and adequately insured. Include a letter, detailing the complaint and including your daytime telephone number, inside the shipping carton. If your warranty has expired and you want an estimated fee for service, write to the above address, specifying the model and the problem.

NOTE: Please do not send your unit without first receiving an estimate for servicing from EXCALIBUR ELECTRONICS, INC. Contact us before sending your unit. We cannot store your unit!
