## □ **Features**

### **Compatible with PAL DVD (Video CD) and NTSC DVD (Video CD)**

This player can play discs recorded in either PAL or NTSC format.

- L/R stereo analog audio outputs for connection to existing head unit aux inputs. Video output is composite video.
- Supplied remote handles multi-function software (multi-language audio-track/subtitle, multi-angle, etc.), plus all basic functions.

## □ **Use This Product Safely**

This set has been designed and manufactured to assure personal safety. Improper use can result in electric shock or fire hazard. The safeguards incorporated in this unit protect you if you observe the following procedures for installation, use and servicing. This unit doesn't contain any parts that can be repaired by the user.

### **When Driving**

Keep the volume level low enough to be aware of road and traffic conditions.

### **When Car Washing**

Do not expose the product to water or excessive moisture. This could cause electrical shorts, fire or other damage.

### **When Parked**

Parking in direct sunlight can produce very high temperatures inside your vehicle. Give the interior a chance to cool down before starting playback.

### **Use the Proper Power Supply**

This product is designed to operate with a 12 volt DC, negative ground battery system.

### **Protect the Disc Mechanism**

Avoid inserting any foreign objects into the slot of this player.

Failure to observe this may cause malfunction due to the precise mechanism of this unit.

### **Use Authorized Service Centers**

Do not attempt to disassemble or adjust this precision product. Please refer to the Service Center list included with this product for service assistance.

### **For Installation**

The unit should be installed in a horizontal position with the front end up at a convenient angle, but not more than 30°.

## **SAFETY INFORMATION**

---

### **CAUTION:**

MOBILE DVD PLAYER IS A CLASS I LASER PRODUCT. HOWEVER THIS MOBILE DVD PLAYER USES A VISIBLE/INVISIBLE LASER BEAM WHICH COULD CAUSE HAZARDOUS RADIATION EXPOSURE IF DIRECTED. BE SURE TO OPERATE THE MOBILE DVD PLAYER CORRECTLY AS INSTRUCTED.

USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

DO NOT OPEN COVERS AND - DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.

### **WARNING:**

- TO REDUCE THE RISK OF FIRE OR ELECTRICAL SHOCK, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.
- TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, AND ANNOYING INTERFERENCE, USE ONLY THE RECOMMENDED ACCESSORIES.
- THIS DEVICE IS INTENDED FOR CONTINUOUS OPERATION.

### **Region Management Information**

Region Management Information: This Mobile DVD Player is designed and manufactured to respond to the Region Management Information that is recorded on a DVD disc. If the Region number described on the DVD disc does not correspond to the Region number of this Mobile DVD Player, this Mobile DVD Player cannot play this disc.

# DISC NOTES

---

## Handling and Cleaning

- Dirt, dust, scratches and warping discs will cause wrong operation.
- Do not place stickers or make scratches on discs.
- Do not warp discs.
- A disc should always be kept in its case when not in use to prevent from damage.
- Do not place discs in the following places:
  1. Direct sunlight.
  2. Dirty, dusty and damp areas.
  3. Near car heaters.
  4. On the seats or dashboard.

## Disc Cleaning

Use a dry soft cloth to wipe the surface. If the disc is quite dirty, using a soft cloth slightly dip with isopropyl (rubbing) alcohol. Never use solvents such as benzine, thinner or conventional record cleaners as they may mar the surface of the disc.

### Note:

A disc may become somewhat scratched (although not enough to make it unusable) depending on the way it is handled and conditions in the usage environment. Note these scratches are not an indication of any problem with the player.

## □ Preparing New Discs with Rough Spots

A new disc may have rough edges on its inside and outside edges. If a disc with rough edges is used, the proper setting will not be performed and the player will not play the disc. Therefore, remove the rough edges in advance by using a ballpoint pen or pencil as shown on the right. To remove the rough edges, press the side of the pen or pencil against the inside and outside edges of the disc.

# INSTALLATION

---

## Notes:

- Choose the mounting location where the unit will not interfere with the normal driving function of the driver.
- Before finally installing the unit, connect the wiring temporarily and make sure it is all connected up properly and the unit and the system work properly.
- Use only the parts included with the unit to ensure proper installation. The use of unauthorized parts can cause malfunctions.
- Consult with your nearest dealer if installation requires the drilling of holes or other modifications of the vehicle.
- Install the unit where it does not get in the driver's way and cannot injure the passenger if there is a sudden stop, like an emergency stop.
- If installation angle exceeds 30° from horizontal, the unit might not give its optimum performance.

- Avoid installing the unit where it would be subject to high temperature, such as from direct sunlight, or from hot air, from the heater, or where it would be subject to dust, dirt or excessive vibration.

## DIN FRONT/REAR-MOUNT

This unit can be properly installed either from "Front" (conventional DIN Front-mount) or "Rear" (DIN Rear-mount installation, utilizing threaded screw holes at the sides of the unit chassis). For details, refer to the following illustrated installation methods.

## TAKE OUT SCREW BEFORE INSTALLATION

Before install the unit, please remove the two screws.

## DIN FRONT-MOUNT (Method A)

### Installation Opening

This unit can be installed in any dashboard having an opening as shown below:

### Installing the unit

Be sure you test all connections first, and then follow these steps to install the unit.

1. Make sure the ignition is turned off, and then disconnect the cable from the vehicle battery's negative (-) terminal.
2. Disconnect the wire harness and the antenna.
3. Press the release button on the front panel and remove the control panel (see the steps of "removing the front panel").
4. Lift the top of the outer trim ring then pull it out to remove it.
5. The two supplied keys release tabs inside the unit's sleeve so you can remove it. Insert the keys as far as

# INSTALLATION

they will go (with the notches facing up) into the appropriate slots at the middle left and right sides of the unit. Then slide the sleeve off the back of the unit.

(1) Front Panel; (2) Outer Trim Ring;  
(3) Sleeve; (4) L key; (5) R key.

6. Mount the sleeve by inserting the sleeve into the opening of the dashboard and bend open the tabs located around the sleeve with a screwdriver. Not all tabs will be able to make contact, so examine which ones will be most effective. Bending open the appropriate tabs behind the dashboard to secure the sleeve in place.

(1) Dashboard (2) Tabs

7. Reconnect the wire harness and the antenna and be careful not to pinch any wires or cables.
8. Slide the unit into the sleeve until it locks into place.
9. To further secure the unit, use the supplied metal strap to secure the

back of the unit in place. Use the supplied hardware (Hex Nut (M5mm) and Spring Washer) to attach one end of the strap to the mounting bolt on the back of the unit. If necessary, bend the metal strap to fit your vehicle's mounting area. Then use the supplied hardware (Tapping Screw (5x25mm) and Plain Washer) to attach the other end of metal strap to a solid metal part of the vehicle under the dashboard. This strap also helps ensure proper electrical grounding of the unit.

Note to install the short threading terminal of the mounting bolt to the back of the unit and the other long threading terminal to the dashboard.

(1) Metal Strap; (2) Mounting Bolt;  
(3) Hex Nut; (4) Spring Washer;  
(5) Tapping Screw; (6) Plain Washer

10. Reconnect the cable to the vehicle battery's negative (-) terminal. Then replace the outer trim ring and install the unit's front panel (see the steps of "installing the front panel").

## Removing the unit

1. Make sure the ignition is turned off, then disconnect the cable from the vehicle battery's negative (-) terminal.
2. Remove the metal strap attached the back of the unit (if attached).

# INSTALLATION

---

3. Press the release button to remove the front panel.
4. Lift the top of the outer trim ring then pull it out to remove it.
5. Insert both of the supplied keys into the slots at the middle left and right sides of the unit, then pull the unit out of the dashboard.

To fasten the unit to the factory radio mounting brackets.

Align the screw holes on the bracket with the screw holes on the unit, and then tighten the screws (5x5mm) on each side.

Note: the outer trim ring, sleeve and the metal strap are not used for method B installation.

## ***DIN REAR-MOUNT (Method B)***

If your vehicle is a Nissan, Toyota, follow these mounting instructions.

Use the screw holes marked T (Toyota), N (Nissan) located on both sides of the unit to fasten the unit to the factory radio mounting brackets supplied with your vehicle.

## USING THE DETACHABLE FRONT PANEL

---

### To Detach the Front Panel

1. Press the release button, then the front panel will be folded down.

2. To remove the front panel, lift it up at a little angle from horizontal position, then first pull out the right side and then pull out the left side.

3. For safekeeping, store the front panel in the supplied protective case immediately after being removed.

### To Install the Front Panel

1. To install the front panel, first insert the left side into proper position then insert the right side into place.

2. When the two sides fixed into place, push the front panel into main unit.

3. Note that if the front panel fails to lock in position properly, pressing control button may not function and the display may be missing some segments. Press the release button and then reinstall the front panel again.

### Precautions when handling

1. Do not drop the front panel.
2. Do not put pressure on the display or control buttons when detaching or re-installing the front panel.
3. Do not touch the contacts on the front panel or on the main unit body. It may result in poor electrical contact.
4. If any dirt or foreign substances adhered on the contacts, they can be removed with a clean and dry cloth.
5. Do not expose the front panel to high temperatures or direct sunlight in anywhere.
6. Keep away any volatile agents (e.g. benzene, thinner, or insecticides) from touching the surface of the front panel
7. Do not attempt to disassemble the front panel.

19. ANGLE  
Press to change the view angle on multi-angle DVD disc.

## LOCATIONS AND FUNCTION OF THE REMOTE CONTROL

---

### 20. SLOW/PAIR

For some discs, press to start slow forward function.

Press it to enter the pair function for Bluetooth operation.

### 21. ZOOM/CLR

Press to allow the picture to be increased in size.

CLR button serves as back spaces key in Bluetooth operation.

### 22. SELECT

Press to enter into the system setup menu.

### 23. SEEK- ◀◀/ SEEK+ ▶▶

Press shortly to skip to the previous/next track.

Press and hold it to activate fast reverse/forward function.

In radio mode, press it shortly to search the frequency backward/forward manually. Press and hold it to seek the frequency automatically.

### 24. AUDIO/VOL TR.

In DVD mode, press shortly to display the audio information of the disc.

In DVD mode, press and hold it to enter into EQ setting, such as POP, CLAS, ROCK and OFF. In other mode, pressing the button is EQ function.

During the talking mode in Bluetooth operation, press VOL TR. to transfer the phone call between the mobile phone and the unit (not every type of mobile phone supports).

### 25. 10+/\*

Digital selecting button for track, cooperatively used with numeric

buttons.

In Bluetooth mode, press to input the \* icon.

### 26. GO TO/#

GOTO (Disc search button) used in media play mode, cooperatively used with numeric buttons.

In Bluetooth mode, press to input the # icon.

## Preparing the Remote Control

### *Inserting the Batteries*

1. Open the battery compartment cover.
2. Insert the new batteries. Make sure that the positive and negative terminals of the batteries are oriented as indicated.
3. Close the cover.
  - Battery: One button cell lithium battery (CR2025).

### *Using the Remote Control*

Point the remote control towards the remote control signal receiver on the player front face.

Operation angle: About  $\pm 30$  degree in each the direction of the front of the remote sensor.

# OPERATION

## BASIC OPERATION

### ◆ Turn the unit on/off

When all the connection is finished, press **MUTE** button on the front panel or **MUTE** on the remote control will turn the unit on. When the unit is on, hold press **MUTE** button or press **MUTE** to turn the unit off.

### ◆ Fold down the front panel

Press the release button on the front panel, the panel will be folding down.

### ◆ System menu

Press the volume button on the front panel of the unit or **SELECT** on the remote control to enter into the setup menu.

<b>BASS</b>	<b>0</b>
<b>TREB</b>	<b>0</b>
<b>BALA</b>	<b>L= R</b>
<b>FADE</b>	<b>F= R</b>
<b>TIME</b>	<b>00:05</b>
<b>TIME</b>	<b>OFF</b>
<b>SUBWOOF</b>	<b>OFF</b>
<b>STEREO</b>	<b>ON</b>
<b>TAVOL</b>	<b>35</b>
<b>REG</b>	<b>OFF</b>

Then press **◀/▶** buttons on the front panel or on the remote control to select the item up or down, then use the volume knob on the front panel or **VOL+/-** buttons on the remote control to adjust the selected item.

\* TIME --- ON or OFF

When TIME OFF, the CLOCK will disappear.

\* STEREO --- ON or MONO

\* SUBWOOF --- ON or OFF

The subwoofer output jack is on the back of the unit.

NOTE: In DVD/AV mode, press the **SEL** button, you can see another more interface:

**BRIGHTNESS**  
**CONTRAST**  
**SHARPNESS**  
**COLOR**  
**HUE**  
**RESET**

Then press **◀/▶** buttons on the front panel or on the remote control to select the item up or down, then use the volume knob on the front panel or **VOL+/-** buttons on the remote control to adjust the Brightness, Contrast, Sharpness, Color and Hue.

### ◆ Remote sensor

There is a remote sensor on the front panel. You can point the remote control to the remote sensor and press functions keys on the remote control to control the unit.

### ◆ Reset function

Press the release button on the front panel to fold down the panel, then you will see the **RST** button on the housing of the unit.

It must be activated with either a ballpoint pen or thin metal object. The reset button is to be activated for the following reasons:

1. Initial installation of the unit when all wiring is completed.
2. All the function buttons do not work.
3. Error symbol on the display.

### ◆ Volume level adjustment

Rotating the volume knob on the front panel clockwise or anticlockwise or pressing **VOL+/-** buttons on the remote control to adjust the volume level.

When you adjust the volume the current value of the volume will be

## OPERATION

---

displayed on the screen.

Pressing **MUTE** button on the front panel or **MUTE** button on the remote control will mute the sound. Press it again will resume the sound.

### ◆ Mode selection

Press **MODE** button on the front panel or **MODE** on the remote control to select the desired mode to enjoy. Such as DVD, radio, USB, SD, AV IN mode.

### ◆ Clock set

Press **CLOCK** button shortly on the front panel to display the clock. Then press and hold **CLOCK** button for several seconds, the hour will be selected, then rotate the volume knob on the front panel to change the value and press volume button to confirm. The cursor will resume to the minute. Then use the volume knob on the front panel to change the value of the minute and press volume button to confirm.

### ◆ Equalization

In radio mode, press **AUDIO** button on the remote control to turn on equalization function and to select desired audio mode, such as POP, CLAS, ROCK and OFF.

In DVD mode, press and hold the button is EQ function.

### ◆ Brake function

When driving, the picture will not be shown on the screen in DVD/AV mode for safety purpose. Only the audio will be heard.

Note: Only when parking (the pink brake wire is connected to the ground), the DVD/AV picture can be seen on the screen. When driving, the warning information will be displayed.

### ◆ Rearview function

On the back of the unit, there is a yellow jack for rearview video in. When backing a car, the picture of the screen will switch to rearview picture automatically and the unit will play the video information that inputted from the yellow rearview video in jack.

## DVD OPERATION

### ◆ Loading/ejecting a disc

When the front panel folding down, you will see the disc slot and **▲** (eject) button on the housing of the unit.

When there is not any disc on the slot, insert the disc with printed side facing up into the disc slot. Then let the front panel up to normal position. The player will start playback automatically.

Press **▲** button to eject the disc.

### ◆ Stopping playback

Press **■** button on the front panel or **■/↶** on the remote control for one time to pre-stop the playback. When **▶||** button on the front panel or on the remote control is pressed, normal playback will continue.

Press **■** or **■** button twice to stop the playback completely.

### ◆ Pausing play

Shortly press **▶||** on the front panel or **▶||** on the remote control during playback to stop playback temporarily. Shortly press **▶||** again will return to the normal playback.

### ◆ Rapid forward / rapid reverse

Hold press **▶▶|/|◀◀** on the front panel or hold press **▶▶|/|◀◀** on the remote control during playback.

## OPERATION

---

Each time the button is hold pressed, the speed of rapid forward /reverse changes according to the disc as follows.

DVD/VCD/CD/MP3:

### ◆ Slow motion playback (for DVD only)

Press **Slow** on the remote control during play. Each time the button is pressed, the speed of slow forward (SF) changes according to the disc as follows.

DVD:

In slow motion state, shortly press **▶II** on the remote control or **▶II** on the front panel to resume the normal playback.

### ◆ Skipping track

Pressing **▶II/II◀** buttons on the remote control or **▶II/II◀** on the front panel during playback will skip to the next/previous track.

When PBC (playback control) ON, these buttons may be unavailable.

Note you can use the numeric buttons (0-9) and 10+ button on the remote control to select the track directly.

### ◆ DVD title menu & Menu play

1. When playing a DVD disc, pressing **TITLE** button on the remote control will stop the playback and return to the TITLE menu that is stored in DVD disc. The disc will be played automatically and stop at menu picture.

2. Press **◀ / ▶**, **▲ / ▼** cursor buttons on the remote control to move between the highlight bars in the menu.

3. Press **ENTER** button on the remote control to confirm the selected item. Note when playing a DVD disc, you can press **PBC** button on the remote control to enter the menu play interface of the disc. Then you can select the desired item to play.

### ◆ Zoom function

Allows the picture to be increased in size. Press **ZOOM** button on the remote control to toggle scale among 1, 2, 3, 4, 1/2, 1/3, and 1/4. When the scale is 1/4, press **ZOOM** again will exit zoom operation.

During zoom mode, press **◀ / ▶**, **▲ / ▼** buttons to move the picture left/right, up/down.

### ◆ Multi-subtitle language function (For DVD)

Press **Sub-T** button on the remote control or **SUB-T** button on the front panel during playback. The corresponding information will be shown on the screen.

Each time the button is pressed, the subtitle language changes in the sequential order.

Note: The language is different according to the disc. Some discs only contain one subtitle language.

### ◆ Multi-angle function (For DVD)

Press **ANGLE** button on the remote control during playback. The corresponding information will be shown on the screen.

Each time the button is pressed, the angle changes in sequential order.

## OPERATION

Notes:

- The angle number is different according to the disc.
- The function only works for discs having scenes recorded at different angles.

### ◆ Multi-audio Language function

Press **AUDIO** during playback. The corresponding information will be shown on the screen.

Each time the button is pressed, the audio soundtrack language changes on sequential order.

Notes:

- The language number is different according to the disc.
- Some discs only contain one soundtrack language.

### ◆ Repeat play

When you want to repeat playing the whole disc or track or a chapter in the disc.

Press **RPT** button on the remote control or on the front panel repeatedly to select different repeat mode. For different kinds of discs, pressing **RPT** button has different effects. For example:

DVD:

MP3:

**Note:** REPEAT feature does not support VCD2.0 (with PBC ON).

### ◆ Play the tracks in random order

For some discs, when playing, press **RDM** button on the front panel or on the remote control will play the tracks on the disc in shuffle order. In shuffle on mode, press **RDM** button again will exit shuffle playing.

### ◆ Program play

In program play mode, you can play the track in your desired sequence.

To program play a disc, please follow the next instructions.

**For VCD (when PBC OFF) /CD/MP3 disc:**

- Press **PROG** button on the remote control to enter the program edit interface.

- Press **◀ / ▶**, **▲ / ▼** cursor buttons on the remote control to select the items you want to program. The items you selected will become highlight.
- Input the number you want to program by numeric buttons (0-9) on the remote control. Use cursor buttons to select **PLAY** on the bottom of the screen, or press **ENTER** on remote control to confirm. And the unit will play the tracks you programmed.
- If you want to clear the program, select **CLEAR** on the screen and press **ENTER** on the remote control to confirm, and the unit will cancel the programmed play.

**For DVD disc:**

The operation is the same as VCD/CD operation. Press **PROG** button on the remote control the following media play window will be shown on the screen:

## OPERATION

### Note:

When playing tracks you programmed, press **PROG** button to enter the program interface, pressing **PROG** for the second time will exit the menu and the unit will resume normal play. When you want to return to program play, press **PROG** to enter program interface and select **PLAY** then press **ENTER** button on the remote control to confirm, it will begin program play.

### For JPEG disc:

When playing a JPEG disc, press **PROG** button to select the different play mode of the photos.

### ◆ Goto Function

FOR DVD:

Press **GO TO** button on the remote control, the screen will display the following message:

DVD TT 03/05CH 004/017 00:00:06

Use the numeric buttons to input the desired Title, Chapter or Time, then press **ENTER** button to confirm.

FOR VCD (WITH PBC OFF)/CD/MP3:

You can input the Track and Time then press **ENTER** to confirm.

### ◆ PBC Menu Playback of VCD/SVCD

For some VCD or SVCD discs, there is a menu in order to select the desired contents. This menu is called PBC (Playback Control) menu.

Press **PBC** button on the remote control to change between PBC ON

and PBC OFF on the disc.

In PBC ON mode, such as REPEAT, RANDOM functions are unavailable.

### ◆ DVD Setup
