## Jabra C220s – Behind-the-ear stereo headset for mobile phones and music players

Listening to music or talking on your mobile phone is made easy with the Jabra C220s – an innovative, behind-the-ear stereo headset for hours of listening comfort. These high-quality, miniature speakers combine with Jabra’s patented MiniGels™ to deliver either music or conversation directly into your ears. An in-line microphone ensures that when you talk, you are heard clearly.

The Jabra C220s combines comfort, style and great stereo sound all in one easy-to-use headset.

### Jabra C220s – Key benefits

- Plugs directly into your mobile phone or music player (using supplied adapter)
- Automatically mutes for an incoming call and resumes playing when the call has ended
- Jabra Minigels™ comfortably channel sound directly into your ears for perfect stereo listening
- Discreet and lightweight - virtually disappears behind the ears
- In-line microphone for clear voice pick-up

1

**‘Answer’ / ‘End’ button**  
In-line button activates voice dialing and makes answering and ending calls easy.

2

**Flexible comfort**  
Discreet, behind-the-ear design for secure listening comfort.

3

**Jabra Minigels™**  
Ensure superior sound clarity. Soft and washable.

4

**In-line microphone**  
For excellent voice pick-up and consistent clarity.
