Congratulations on the purchase of your new **4-port USB 2.0 netbook hub**. This product comes with a limited lifetime warranty.

Before using your product, please thoroughly read and follow the instructions inside this manual.

If you still need help, see the back page for other support options.

If you want to know more about our products, visit us online at www.iHomecomputer.com.

system requirements

- Windows® XP, Windows Vista® or Windows 7
- USB port

features

- four USB 2.0 ports transfer files up to 40x faster than USB 1.1
- fifth USB port charges iPod®, iPhone®, BlackBerry®, cell phone and other USB devices
- two top-loading USB ports for convenient access when the other USB ports are blocked
- hassle-free cable management

set up USB hub

1. lift USB connector from slot

2. unwrap USB cable from storage slot

3. connect USB cable

4. connect your USB devices to your hub

5. start using your devices!

► **note** Your 4-port USB 2.0 netbook hub can be used to connect any device that consumes less than 100 mA (milliamperes)—including digital cameras, card readers, keyboards, mice, MP3 players, thumb drives and many other handheld USB devices. Devices that use more power than this may not work with the hub.

product operating tips

- When not in use, close the lid over the top USB ports and wrap the cable to cover the other USB ports.

- You can add up to four devices to your netbook hub to transfer music, videos and files.
- You can use the fifth USB port to charge your iPod®, iPhone®, BlackBerry®, cell phone and other USB-powered devices.

troubleshooting

situation	try this
-----------	----------

USB hub does not work

- Ensure the USB cable is properly connected to a USB port on your netbook.
- Ensure the devices are connected properly.
- Ensure that you have not connected your device to the fifth USB port (for charging only).

- Insert the hub into a different USB port.

FCC Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction guide, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult a service representative for help.

Properly shielded and grounded cables and connectors must be used in order to comply with FCC emission limits. LifeVorks is not responsible for any radio or television interference caused by using other than recommended cables and connectors or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.
