

STAR-MAX® CHROME ELECTRIC GRIDDLES

Models 524CHSD, 536CHSD & 548CHSD

Features/Benefits:

- ★ Star-Max Chrome Griddles feature a 3/4" steel plate with a hard chrome surface providing superior cooking performance and even heat distribution.
- ★ Highly polished chrome surface reflects heat inward reducing radiant heat, lowering energy cost up to 30% and keeps the kitchen cooler.
- ★ Easy to clean chromium surface reduces labor costs up to 50% by sealing the surface and eliminating food build-up.
- ★ The non-porous chrome surface eliminates food taste transfer improving cooking performance.
- ★ Available in 24", 36" and 48" widths to meet your space and volume requirements.
- ★ A 4000 watt heating element every 12" of cooking surface allows for fast recovery time.
- ★ Snap-action thermostat control from 150°F to 450°F provides quick response to temperature change.
- ★ Spatula wide 3-1/4" grease trough, grease chute for easy cleaning.
- ★ Large 4-1/2 quart stainless steel grease drawer.
- ★ Stainless steel, 4-1/2" high tapered splash guard provides maximum protection against grease and spills.
- ★ Heavy-duty 4" adjustable legs to match the height of other Star-Max equipment in your line.

Model 536CHSD

Model 548CHSD
with Optional Equipment Stand

Applications:

Star-Max Chrome Griddles are a perfect addition to any food service operation. Superior cooking performance, lower energy cost, and no food taste transfer will improve all of your menu items and keep your customers coming back for more!

Quality Construction:

Star-Max Chrome Griddles are constructed with quality and durability in mind. The stainless steel front control panel with black polycarbonate trim, stainless steel bull nose front for knob protection, and nickel-plated die-cast legs offer years of easy maintenance and outstanding performance. Double wall construction allows installation within 1" of combustible surface. Griddles operate on 208 or 240 volts and are equipped with a junction box at the rear for making electrical connections.

Warranty:

Star-Max Chrome Griddles are covered by Star's one year parts and labor warranty. In addition, the Chrome surface has a limited five year warranty.

Typical Specifications

Electric griddles are constructed of a stainless steel front panel with black polycarbonate trim and double wall aluminized steel side panels. Griddle plate is 3/4" (1.9 cm) thick with a hard chrome plated surface. Unit has a 3-1/4" (8.3 cm) wide front grease trough with grease chute and a 4-1/2 qt. (4.3 L) stainless steel grease drawer and 4-1/2" tapered high splash guard. Unit is heated with a 4000 watt incoloy sheath type element every 12" (30.5 cm) of griddle width and is controlled with a snap-action thermostat. Thermostat knob is protected by a stainless steel bull nose front. Unit is supplied with 4" (10.2 cm) die cast nickel plated legs that have a 1-3/8" (3.5 cm) adjustment. A junction box is provided for making electrical connections. Units to be listed by Underwriters Laboratories and be UL Sanitation and UL Canada approved. Model 548CHSA is UL and UL Sanitation approved. Printed in U.S.A.
