BOROSILICATE GLASS PARKING STRUCTURE LUMINAIRE

- Formed aluminum flush draw-action latches offer easy access to lamp compartment without tools and maintain integrity of seal when closed
- HID—4KV pulse rated medium-base with nickel-plated screw shell
- HID—HPF, -20° starting Dual-Tap standard. For use with up to 175W Metal Halide lamp, 150W High Pressure Sodium or 85W QL Induction
- Molded borosilicate glass refractor. Glass shock-absorbing system consists of 16 gauge steel ring to support the full round lens; the lens floats on the injection-molded silicone gasket for additional protection. Optional polycarbonate lens available
- Liquid injection-molded silicone gasket provides continuous seal between housing and refractor assembly
- U.L. listed and CSA certified for wet locations in all mounting positions; IP65 rated
- Approximate net weight: 34 lbs. (15 kgs.)

DESCRIPTION

The McGraw-Edison PSL Parking Structure Luminaire is a multi-purpose parking luminaire. The refractor provides proper 3D illumination for parking garages while the glare guard and light trespass shield add extra measure of visual comfort and control. The PSL improves drivers vision and pedestrian safety in parking garage facilities.
