## Product highlights

### MMS starter kit

*MMS starter kit with large picture library is a database of fun pictures stored in the phone that you can use to send fun MMS (Multimedia Messaging Service) messages. Create an MMS, then link a picture from the library to send to friends and family.*

### MMS messaging

*MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.*

### 4K color display

*4K color display uses RGB color synthesis theory to bring you vivid pictures and other images for a more enjoyable experience.*

### Handsfree mode

*Handsfree mode uses a built-in loud speaker to amplify the voice of your caller, allowing you to speak and listen during a call without holding the phone to your ear, which is especially useful if you'd like to share the call with some friends or take notes during the call.*

### 32-tone polyphonic melodies

*32-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.*
