4 Port Manual VGA Video Switch

StarTech ID: DS154

StarTech.com's Manual 4-to-1 VGA/SVGA Monitor Switchbox lets up to 4 computers share 1 monitor, without having to swap out video cables.

The VGA/SVGA monitor switch requires no power supply and features a compact form factor design that's ideally suited for desktop installation - allowing users to manually switch between up to 4 computers using a single VGA monitor without disrupting the workspace.

Designed for reliable operation and maximum convenience, the Manual 4-to-1 VGA/SVGA Monitor Switchbox is backed by StarTech.com's Lifetime Warranty and free lifetime technical support.
