Power

- **Power supply:** 200-240 V, 50Hz
- **Standby power consumption:** < 1 W

Product highlights

Multi-channel SACD

Multi-channel SACD prepared. This new generation music format gives you Ultra high quality music reproduction, 5.1 multi-channel surround sound and full backward and forward compatibility with CD.

Dolby Digital EX

Dolby Digital EX decoding is a new technology that adds an extra sense of dimensional detail and intensified involvement to the already thrilling Dolby Digital 5.1-channel listening experience. The extra surround channel creates an even more exciting, enveloping surround-sound effect.

Cinema Center Speaker™

Recreate and experience realism cinematic experience right in your environment with Cinema Center Speaker™. With a wider sweet spot delivered by four multi-directional woofers and a high frequency tweeter positioned precisely at different angles, more sound depths are distinguished from front and background and action from dialogue. Natural and crystal clear sound reproduction are created through the revolutionary new 2" full range woofers to give an incredible 'through the screen' experience which creates the sensation of being not just in the cinema but in the movie itself.

Color coded speaker connectors

Color-coded connectors provide a simple and user-friendly solution to connect the speakers and subwoofer to the center unit of the home entertainment system simply by plugging the connectors in the matching colored interface at the rear of the center unit.

Digital coax & optical inputs

Digital coaxial and optical inputs offer the highest quality digital audio input connections on your receiver. You can digitally transfer Dolby Digital, MPEG2, PCM and dts from your AV equipment to the receiver using a single cable.

7-channel analog input

7-channel analog input on your receiver allows you to directly connect to the analog output of your AV equipment capable of decoding Dolby Digital EX and/or dts-ES (which has an additional rear-center speaker output)

DVD/SACD Player

TV

Satellite tuner

Game console
