

UWF-1 Wireless LAN Adapter

USB 11n b/g

PC and Internet Audio Delivered Wirelessly to Your Main System

Onkyo's mission is to keep you up to date with the latest advances in home entertainment. With wireless audio on the rise, the UWF-1 Wireless LAN adaptor helps you integrate your music life and remove unwanted cables. Connected to the USB port on a compatible Onkyo A/V receiver, the UWF-1 brings audio through a wireless router into your main entertainment system. Now internet radio and audio files stored on your PC can be played back with the superior fidelity of your main Onkyo system—sans the cable clutter.

FEATURES

- Provides Wireless Link to Network-Capable Onkyo A/V Receivers and Stereo Receivers (TX-NRxx9 and Later)
- Connects Directly to Receiver via USB
- Direct Internet Radio Playback via Wireless Router
- 2.4 GHz Wireless Transmission Frequency

Note: The UWF-1 is compatible only with Onkyo receivers and does not connect directly with PCs. For more information, please visit Onkyo website (www.onkyo.com)
