- D M4 x 12 mm screws (4)
- E M4 x 30 mm screws (4)
- F M4/M5 washers (8)
- G M4/M5 spacers (4)

M5 bag

- H M5 x 12 mm screws (4)
- I M5 x 30 mm screws (4)

M6 bag

- J M6 x 12 mm screws (4)
- K M6 x 20 mm screws (4)
- L M6 x 35 mm screws (4)
- M M6 washers (4)
- N M6 spacers (4)

Hex key bag

- O 3/16 in. hex key (1)

Lag bolt bag

- P Concrete anchors (3)
- Q Lag bolt washers (3)
- R 5/16 in. x 23/4 in. lag bolts (3)

Tools you will need:

- Phillips screw driver
- Stud finder
- Awl
- Pencil
- Level
- Tape measure
- Hammer (Concrete Only)
- 1/2 in. socket wrench
- 3/16 in. wood drill bit
- 3/8 in. masonry drill bit (Concrete Only)
- Power drill

Lag bolt bag

1 Attach the TV brackets

Option 1: Attaching to a flat mounting surface

Attach the left and right TV brackets (B and C) to the back of the TV using:

The M4/M5 washers (F) and the M4 x 12 mm screws (D) or the M5 x 12 mm screws (H).
Or
The M6 washers (M) and the M6 x 12 mm screws (J) or the M6 x 20 mm screws (K).

Option 2: Attaching to a curved or irregular mounting surface

Attach the left and right TV brackets (B and C) to the back of the TV using:

The M4/M5 spacers (G), M4/M5 washers (F), and the M4 x 30 mm screws (E) or M5 x 30 mm screws (I).
Or
The M6 spacers (N), M6 washers (M), and the M6 x 35 mm screws (L).

Note: Use the M4 washers (F) between the spacers and the bracket with the M4 or M5 screws only.

2 Install the wall plate

Option 1: Installing to a wood stud wall

Caution: Avoid potential injuries or property damage! DO NOT over-tighten the lag bolts.

Note: Any material covering the wall must not exceed 5/8 in. (16 mm).

- a. Locate the studs. Verify the center of the stud with an awl or thin nail or use an edge-to-edge stud finder.
- b. Level the wall plate (A) and mark hole locations.
- c. Drill pilot holes as illustrated.
- d. Align the wall plate (A) with the pilot holes, then place the lag bolt washers (Q) over the holes. Insert the lag bolts (R) through the washers, then tighten the lag bolt with a socket wrench only until they are pulled firmly against the wall plate.

Option 2: Installing to a solid concrete or concrete block wall

Caution: Avoid potential injuries or property damage! DO NOT over-tighten the lag bolts.

NOTE: Any material covering the wall must not exceed 5/8 in. (16 mm).

3 Mount the TV to the wall

Holding the TV with the top of the screen tilted toward the wall, slide the upper notches of the TV bracket over the upper flange of the wall plate. Then, gently lower the TV until the lock engages the lower flange of the wall plate. There will be an audible click when the TV is securely latched into place.

Remove the TV from the wall

Slide the latch to the unlatched position, then lift the TV up and off the wall plate.

4 Adjust the tilt angle (if necessary)

You can adjust the tilt angle of the screen 10° forward or 5° backward.

If necessary, the tilt tension can be adjusted by tightening or loosening the tension knob with either the hex key (O) or by hand.

IMPORTANT SAFETY INSTRUCTIONS • SAVE THESE INSTRUCTIONS

Caution: Do not use this product for any purpose not explicitly specified by Rocketfish. Improper installation may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the installation, contact Customer Service or call a qualified contractor. Rocketfish is not responsible for damage or injury caused by incorrect installation or use. The weight of your TV must not exceed 80 lbs. (36.37 kg). The wall must be capable of supporting five times the weight of the TV and wall mount combined.

This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children!
