H10 [5GB color]

Harddisc Player

- High-contrast 1.5" color display with up to 260,000 colors
- Capacity for more than 2,500 songs or lots of other data
- Vertical touchpad for super-easy navigation
- Integrated FM tuner with recording and timer functions
- Built-in microphone for up to 45 hours of voice recording
- Powerful, replaceable rechargeable battery for up to 12 hours of playback
- Elegant design with high-quality aluminium housing in a range of different fashionable colors

H10 [5GB color]

The iriver H10 [5GB color] is your perfect music buddy that can record up to more than 2,500 songs. It's packed full of innovations and is the first in a new product series with a new design concept that features high-quality aluminum workmanship in a number of different colors and the integrated touchpad means incredibly easy operation.

The iriver H10 is the first player in its class to be equipped with a high-contrast color display with more than 260,000 colors. This not only makes intuitive navigation easier, it also lets you easily put together a slide show to show off your latest holiday pictures. Thanks to its compact dimensions and featherlight weight of only 96 grams, this master of sound can be easily tucked into any handy pocket. The integrated FM tuner makes sure that you don't miss any of your favourite radio programs when you're not at home and, if you don't have the time to listen in yourself, the iriver H10 can automatically record anything you want. The built-in microphone is able to record up to 45 hours of voice directly as MP3. The rechargeable battery just goes on and on and supplies up to 12 hours of continuous playback. There is also a wide range of player accessories sold separately to guarantee perfect sound enjoyment from iriver.
