## Digital FM Radio & Transmitter for iPod® User Manual

# READ FIRST!

## Congratulations!

Your new Kensington Digital FM Radio & Transmitter for iPod® (FM/TR) offers you the freedom to listen to music the way that you want to. With the Kensington FM+TR you may transmit music from your iPod to any FM stereo (car, home, etc.) or to listen to FM radio with your iPod through headphones.

Please read this short manual to learn valuable information about the proper use and installation of your new Kensington FM/TR. Register your new Kensington FM/TR online at [www.kensington.com/register](http://www.kensington.com/register)

## Some Important Things to Remember:

- To find a clear radio station for the FM Transmitter, just press and hold the tune up/tune down button. Then tune your car or home stereo to that same station. See *To Play Your iPod Tunes Through an FM radio* below.
- If you want to listen to the FM radio, just plug in a pair of headphones to the Kensington FM/TR and tune to your station. For more directions, please refer to *To Listen to FM Radio on page* on page 4.
- If you want to listen to your iPod with headphones (plugged into the Kensington FM/TR), just turn off the Kensington FM/TR. It will then operate as a pass-through. See *To Listen to Your iPod Through the Kensington FM/TR* on page 5.

## To Play Your iPod Tunes Through an FM Radio:

1. Make sure the headphones are not plugged into the Kensington FM/TR.
2. Plug in the Kensington FM/TR to your iPod. If the screen does not turn on, press the power button.

3. Press play on your iPod to begin transmitting music.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**MODIFICATIONS:** Modifications not expressly approved by Kensington may void the user's authority to operate the device under FCC regulations and must not be made.

**SHIELDED CABLES:** In order to meet FCC requirements, all connections to equipment using a Kensington input device should be made using only the shielded cable provided.

## Declaration of Conformity Compliance Statement for the Kensington Digital FM Radio & Transmitter for iPod

The Kensington Digital FM Radio & Transmitter for iPod model no. 33169 complies with Part 15 of the FCC Rules. Operation is subject to two conditions: (1) This device may not cause harmful interference, and, (2) this device must accept any interference received, including interference that may cause undesired operation. As defined in Section 2.909 of the FCC Rules, the responsible party for this device is Kensington Technology Group, 333 Twin Dolphin Drive, Sixth Floor, Redwood Shores, CA 94065, USA, (800) 535-4242.

## The Following information is only for EU-member states:

The use of the symbol indicates that this product may not be treated as household waste. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

## 1-Year Limited Warranty

KENSINGTON TECHNOLOGY GROUP ("KENSINGTON") warrants the PRODUCT against defects in material and workmanship under normal use and service for one year from the original date of purchase. KENSINGTON, at its option, shall repair or replace the defective unit covered by this warranty. Please retain the dated sales receipt as evidence of the date of purchase. You will need it for any warranty service. In order to keep this warranty in effect, the product must have been handled and used as prescribed in the instructions accompanying this warranty. This warranty does not cover any damage due to accident, misuse, abuse, or negligence.

### DISCLAIMER OF WARRANTY

The limited warranty described herein is your sole remedy. To the extent permitted by law, Kensington disclaims all other implied or express warranties including all warranties of merchantability and/or fitness for a particular purpose.

### LIMITATION OF LIABILITY

Except to the extent of repairing or replacing the power inverter as expressly stated in the limited warranty described herein, Kensington shall not be liable for any damages, whether direct, indirect, incidental, special, consequential, exemplary, or otherwise, including lost revenues, lost profits, loss of use of software, loss or recovery of data, rental of replacement equipment, downtime, damage to property, and third-party claims, arising out of any theory of recovery, including statutory, contract or tort. Notwithstanding the term of any limited or implied warranty, or in the event that any limited warranty fails of its essential purpose, in no event will Kensington's entire liability exceed the purchase price of this product. Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages so the above limitations or exclusions may not apply to you. This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province.

## Federal Communications Commission Radio Frequency Interference Statement

Note: The Kensington Digital FM Radio & Transmitter for iPod model no. 33169 has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

- Press and hold the *tune up* or *tune down* button for approximately 2 seconds. The Kensington FM/TR will seek out the *clearest* or *cleanest* station for broadcasting your music.

- Tune your car or home stereo to the same station.
- Enjoy!

### Pre-sets:

To program a station into the presets, tune to the desired station, press and hold any 1 of the 4 station presets for approximately 2 seconds.

**NOTE:** your Kensington Digital FM/TR LCD screen will blink as it tries to lock into the FM frequency for the highest quality audio. During this time, you may not hear your music.

If the automatic scan does not find an acceptable station, try the following steps:

- Find a *clear* station (with *pure* static) on your car or home stereo. *Pure* or *clear* means no music, no talking, just static.
- If you hear *bleed in* or *interference* from other radio stations, try to find a different station.
- If possible, stay away from frequencies that are close to major radio stations.
- Once you have found a clear station on your car or home stereo, use the tuning buttons on the right side of the FM/TR, to tune to the same station as your radio.

## To Listen to FM Radio:

1. Plug in the Kensington FM/TR. If the screen does not turn on, press the power button.
2. Plug in the headphones to the top of the Kensington FM/TR.
3. Using the tuning buttons, tune to any station between 88.1 and 107.9.
4. To adjust the volume, use the volume control buttons.

**NOTE:** While you are listening to the FM Radio, your iPod volume will be adjusted periodically to maintain the flow of power to the FM Radio. If you have the Screen Backlight option turned on, this will result in your backlight turning on. If desired, you can turn off the backlight option to prevent this.

5. Press and hold the *tune up* or *tune down* button for approximately 2 seconds to scan the FM spectrum for the next station.

### Pre-sets:

To program a station into the presets, tune to the desired station, press and hold any 1 of the 4 station presets for approximately 2 seconds.

**NOTE:** your Kensington Digital FM/TR LCD screen will blink as it tries to lock into the FM frequency for the highest quality audio. During this time, you may not hear your music.

## To Listen to Your iPod Through the Kensington FM/TR:

1. Plug in the Kensington FM/TR.
2. Turn off the Kensington FM/TR by pressing the power button until the screen turns off.
3. Plug in the headphones to the top headphone jack on the Kensington FM/TR.
4. Press play on your iPod.

## Technical Support

Technical support is available to all registered users of Kensington products. There is no charge for technical support except long distance charges where applicable. Technical Support Contact information can be found on the last page of this manual.

## Technical Support Tips

- You may find the answer to your problem in the Frequently Asked Questions (FAQ) section of the Support area on the Kensington Website: [www.kensington.com](http://www.kensington.com).
- Call from a phone where you have access to your notebook, or other digital device
- Be prepared to provide the following information:
  - Name, address, and telephone number
  - The name of the Kensington product
  - Make and model of your notebook, or other digital device
  - Your system software and version (where applicable)
  - Symptoms of the problem and what led to them
