Charging the headset

This headset has a rechargeable internal battery which is nonremovable. Ensure that you fully charge the battery before using the headset for the first time.

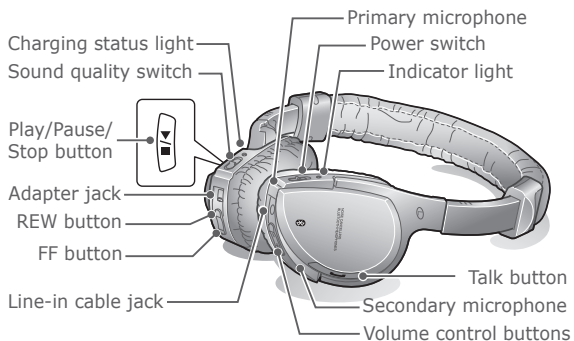

- 1 Put the travel adapter into the adapter jack and into a power outlet.

The charging status light tunes on red.

- 2 Disconnect the travel adapter from the power outlet and the headset when the charging status light changes to blue.

Your headset overview

NOTE:

- Make sure you have the following items with your headset : Travel Adapter, User's Guide, Pouch, Line-in Cable. The items supplied with your headset may vary depending on your region.

NOTE:

- Use only a Samsung-approved travel adapter. Unauthorized adapters may cause an explosion or damage to the headset.
- The battery will gradually wear out while charging or discharging because it is a consumable part.
- When a call comes in while charging, disconnect your headset from the travel adapter and answer the call.

Wearing the headset

Place the headset on your ear. Ensure to put the correct (Left, Right) earpiece on each ear.

Turning the headset on or off

- Slide the power switch  to turn the headset on.
- Slide the power switch  to turn the headset off.

Pairing with your Bluetooth phone

- 1 Enter Pairing mode.
 - Turn the headset on with pressing and holding [🔊]. The indicator light turns on blue and stays lit after flashing blue, red, and purple twice.
 - If you turn the headset on for the first time, it proceeds into Pairing mode immediately.
 - 2 Search for and connect with your phone according to your phone user's guide. (Bluetooth PIN: 0000, 4 zeros).
- ☑ **NOTE:**
When the headset and the phone are paired, press [🔊] to reconnect via the previously connected Headset Profile or Hands-Free Profile, or press [▶/■] to reconnect via the Advanced Audio Distribution Profile.
