

Nilfisk Mobile odour control machines

Nilfisk OZ 1

Destroying the molecules that cause odours

The control panel features timer settings and power level control

The compact design and built-in carrying handle make it easy to move from area to area

The Nilfisk OZ 1 cleans air by ozone that pierces the cell wall of bacteria and virus microorganisms on contact, destroying them, thus eliminating all organic-based odours.

Tobacco smoke, kitchen smells and toilet odours are everyday hazards that businesses face. Whether it is in the office, restaurant, hotel room, taxi or bus, hospital or elderly-care home, bad odours make life unpleasant for workers and visitors alike. The Nilfisk OZ 1 is a professionally designed air cleaner that effectively removes odours, it doesn't merely mask them!

- Compact, lightweight and virtually maintenance-free
- Effective for everyday odour removal & fire restoration
- Eliminates odours, not just covers them
- Effective for areas up to 1200 m³.
- Ozone is the strongest oxidant commercially available, and a proven deodorizer
- Withstands continuous operation in even the most demanding conditions

Technical specifications

Description	Unit	CA 331
Length x width x height	cm	56 x 18 x 20.3
Weight	kg	5.85
Maximum ozone output	gm/hr	2.65
