Advantage Toshiba

- 13" set with Full-Featured VCR for the ultimate in convenience
- Full-function 2 Head VCR with 8 event, 1 month programming
- Auto Repeat feature useful for trade shows or retail applications
- 120 Minute Sleep Timer saves energy and Wake Timer is a convenient alternative to a clock radio
- Front Panel AV Inputs for easy connection of video games or a camcorder
- Front Panel Headphone Jack allows for individual listening privacy

TOSHIBA

Technology & Benefits

Commercial Skip

After a program has been recorded, pressing the SKIP button once during playback will automatically advance the tape 30-seconds forward bypassing recorded commercials. Pressing the skip button on the remote again will advance the recorded tape for another 30-seconds for a total of 60-seconds.

Auto Clock

This feature ensures that your VCR never blinks "12:00" again. A special data stream in your local broadcast source (where available) automatically sets the clock display and keeps it accurate - even when time changes to daylight savings and back.

One-Touch Record

Simplifies setup of timer for recording within a 24-hour period. One button starts record and allows setting of record length.

Digital Auto Tracking

Constantly adjusts tape alignment for optimum picture quality.

Energy Star Compliant

Products with this feature reduce energy consumption, resulting in lower operating costs.

Specifications

TV	VCR	Remote	Unified (VCR/TV) Illuminated
