

GUARDIAN RV GENERATOR PRODUCT LINE

Generac Power Systems has redesigned and expanded its offering of generators for recreational vehicles and trailers. These generators are designed for easy installation, maintenance and serviceability.

With a compact design and quiet operation, the new models are reliable, fuel efficient and CARB compliant – making them the ideal solution.

With a full range of gasoline, diesel and LP products, your customers can power every adventure with the performance and value of a GUARDIAN generator.

THE NEW GUARDIAN RV GENERATORS FEATURE:

- Lightweight, compact design
- Fuel efficient operation
- Easy service and maintenance, featuring a control panel for onboard diagnostics
- Generac's new 530 cc OHVI® Industrial engine which packs more power into a small footprint, featuring one-touch start
- Superior noise reduction for ultra-quiet operation

Adventures are better with power.

QUIETPACT® DIESEL

Model	5432
Watts	8500
Engine	1131 cc
# cylinders	3
Engine RPM	1950
Engine Horsepower	15 at 1950
Fuel	Diesel
Hertz	60
Amps	70.8
