● CHANNEL VISION™ 10 Year Limited Warranty

Channel Vision Technology will repair or replace any defect in material or workmanship which occurs during normal use of this product with new or rebuilt parts, free of charge in the USA, for ten years from the date of original purchase. This is a no hassle warranty with no mail in warranty card needed. This warranty does not cover damages in shipment, failures caused by other products not supplied by Channel Vision Technology, or failures due to accident, misuse, abuse, or alteration of the equipment. This warranty is extended only to the original purchaser, and a purchase receipt, invoice, or other proof of original purchase date will be required before warranty repairs are provided.

Mail in service can be obtained during the warranty period by calling (800) 840-0288 toll free. A Return Authorization number must be obtained in advance and can be marked on the outside of the shipping carton.

This warranty gives you specific legal rights and you may have other rights (which vary from state to state). If a problem with this product develops during or after the warranty period, please contact Channel Vision Technology, your dealer or any factory-authorized service center.

ID652 6.5" Dual Voice Coil In-Ceiling Speaker

234 Fischer Avenue, Costa Mesa, California 92626 USA (714)424-6500 • (800)840-0288 • (714)424-6510 fax email: techsupport@channelvision.com

INSTRUCT

500-008 rev C1

Model ID652

Installation:

- Cut 8" hole in drywall away from ceiling joists.
- We recommend wiring with AWG 16 or larger, stranded wire.
- For proper phasing, both voice coils must be wired alike. Connect red wires to red terminals on speaker and to red or plus terminals on amplifier.
- Install ID652 in hole. Tighten the mounting screws. The mounting dog ears will rotate outward and grip the drywall.
- Aim tweeters
- To control the volume of the speaker locally, use an impedance matching volume control, such as the Channel Vision VC302.

Features:

Dual voice coil speaker delivers stereo sound from a single speaker

Use when only one speaker will fit or to balance coverage in a whole house audio system

Use in bathrooms, hallways, entry ways

Mica-filled polypropylene woofer with true rubber surround

Dual ¹/₂" fluid-cooled ultra-wide dispersion mylar tweeters

Tweeters swivel independently up to 45 degrees

Tweeter protection using thermal sensing polymer switches

Dual 2nd order Butterworth crossover networks

Recommended power: 5W to 90W

Specifications:

Frequency range:	55Hz - 20kHz ± 3dB
Sensitivity:	89dB (for 2.83V pink noise)
Power Handling:	65 Watts RMS (92 Watts Peak)
Drivers:	2- ½" Mylar dome tweeter 1- 6 ½" polypropylene woofer
Impedance:	8 ohms
Finish:	ABS plastic
Dimensions:	9¼" OD. 3½" height (from surface of wall board)
Weight:	5 Lbs as shipped

Specifications subject to change without notice.
