

DOUBLE SPECIALTY WARMERS

Stainless Steel and Lighted Models

Features/Benefits:

- ★ Double specialty warmers in stainless steel or lighted models warm cheese, chili, fudge or other food products from a #10 tin, 3-1/2 quart bain marie or 4 quart vegetable insets.
- ★ Stainless steel and lighted front models have two 3-1/2 quart wells for heating a variety of viscous food items.
- ★ Select from ladle serve units, pumps serve units with and without heated spout or a combination of pump/ladle to match product and serving requirements.
- ★ Adjustable thermostat for precise temperature control and holding product at proper serving temperature.
- ★ Lighted units have a selection of attractive colorful signs that are easily changed (without tools) to match products and build impulse sales.
- ★ Optional stainless steel 3-1/2 quart Bain Marie or 4 quart vegetable insets with covers or serve directly from a #10 tin.

Applications:

Star double specialty warmers are perfect for foods such as chili, cheese, spaghetti sauces, gravies, dessert toppings or any other viscous products. Use them in convenience stores, concessions, recreational facilities, restaurants or wherever you might need to easily serve condiments.

Quality Construction:

Star's double specialty warmers are constructed with stainless steel corrosion resistant heat wells. A lighted on-off switch, attractive black vinyl clad instruction panel and 6' lead in cord with NEMA plug are standard.

Warranty:

Double specialty warmers are covered by Star's one year parts and labor warranty.

Typical Specifications

Double specialty warmers are constructed with stainless steel corrosion resistant heat wells. A lighted on-off switch, attractive black vinyl clad instruction panel and 6' lead in cord with NEMA plug are standard. Pump models and pump with heated spout versions accommodate a #10 tin or optional SSB stainless steel Bain Marie. Non-pump versions use 4 quart stainless inset with cover or 4 quart stainless steel inset with hinged cover. Printed in U.S.A.
