Fake Security Camera

ISC203 HOT SPOTS

Fake Security Camera

- 1. Realistic Camera Lens**
Imitates the look of an actual security camera.
- 2. Camera Housing**
Made of anodized aluminum to prevent rust.
- 3. Realistic Wire**
Made to look like a real, working security camera.
- 4. Camera Mount**
Allows the camera to be desk or wall mountable.

FEATURES OF THE ISC203

Realistic Crime Deterrent

This imitation camera looks just like the real thing. Use it in your home or business to help prevent vandalism and theft. With the same external components as a functioning security camera, the ISC203 is a realistic crime prevention investment.

The ISC203 is not a functioning video camera.

Mounting Bracket

This unit can be easily mounted with its adjustable bracket. Mount it on your ceiling, wall, or desk to deter suspicious activity.

Weatherproof

This imitation camera is made of anodized aluminum that will not rust.
