

## Hub 8-10

### DESCRIPTION

#### *The hub for any need!*

Using Hub 8-10 it is possible to carry out small LANs and concentrate up to 8 PCs at home or office.

Thanks to its small and compact size, Hub 8-10 can be installed anywhere, on your desktop or can be wall mounted, using the proper holes on the bottom of the device.

With Hub 8-10, your LAN can be easily extended in a fast and cheap way.

Furthermore you can connect Hub 8-10 to other hubs or switches through the Uplink port, that can be enabled by a microswitch in the last port, without using cross cables.

Hub 8-10 has an additional 10B2 coaxial port to connect to the business LANs, carried out with this kind of cabling. A good reason to choose Hub 8-10!

Code: 8E4403

- 8 ports RJ-45 10BaseT (MDI-X)
- 1 port BNC 10B2
- 1 Uplink port via switch (MDI)
- Polarity auto detection and correction with auto exclusion in case of fault
