

4-Person MP3 Learning Center

Model 8104

1. Carry case with form-fitted foam snugly holds contents
 2. MP3 Player/Recorder with dual 3.5mm headphone jacks, built-in mic to record podcasts & vocal responses and track student progress
 3. 4-position stereo jackbox with individual volume controls
 4. Four lightweight multimedia stereo headphones with ambient noise-reducing earcups for hearing protection
- Maximum playback volume level set to 85dB (meets American Speech and Hearing Association recommendations for safety)
 - One year warranty for school use - unlike MP3 players purchased from consumer electronics stores whose warranties would be voided if used in schools

This MP3 Learning Center is designed for group listening of digital audio files, recorded books and is ideal for differentiated instruction for language learning, reading skills, ELL and ELD applications. It has built-in volume control for safe listening levels and its ambient noise-reducing earcups reduce the need to turn the volume up (as recommended by the American Speech-Language-Hearing Association) to harmful levels and help keep students on task.

"Project Intercept"
