

# CM1700 Color Label System™

Tired of buying large runs of flexo or offset color labels just to get reasonable costs on quality color output?

Output Technology has your solution. Start printing your high resolution product labels and tags on demand—as you need them. With Output Technology's new CM1700 Color Label Printer it is simple and easy. Your label center can now print your product labels, box labels, barcodes and tags in-house, on one printer that can do it all. Print full-color photos on your box and shelf labels, combining the benefits of high resolution color images along with your part numbers and product codes. You will reduce inventory and shipping errors by making it easy for everyone to know what is inside the box. With the CM1700's ability to print on a wide variety of label media, you will find your label applications are now limited only by your imagination.

## CM1700 Color Label System™
