- State-of-the-art XENYX Mic Preamp comparable to stand-alone boutique preamps
- Neo-classic "British" 2-band graphic EQ for warm and musical sound
- 2-Track input assignable to headphone or main mix output
- Main mix plus separate Phones output
- High-quality components and exceptionally rugged construction ensure long life
- Conceived and designed by BEHRINGER Germany

Need a handy little mixer you can grab with your laptop on the way out the door? Or maybe you don't want to give up valuable desktop real estate to a large mixer? The new XENYX 302USB is ideally suited for a small home studio or the on-the-go recording enthusiast. At approximately 4" long and 5" wide (117 x 135 mm), the XENYX 302USB respects your desk space, while providing an XLR & 1/4" combination socket, stereo USB/Line channel plus a dedicated 2-Track input.

Small, but mighty!

Don't let the XENYX 302USB's diminutive size fool you—this little gem is loaded with features typically reserved for larger, more expensive mixers. For instance, we equipped the Mic input with our XENYX mic preamp, which is legendary for its sonic clarity and high-headroom performance. We also gave the Mic and Line/USB channels our 2-band British-style EQs (Low and High), and provide a 2-Track input that can be assigned to either the Main Mix or Phones.

XENYX 302USB

You can even power the XENYX 302USB from your computer's USB port, which is great for capturing the sounds of migratory birds in flight, or for posting your podcast straight to the Web. Sports

announcers, radio and TV reporters will definitely want one of these in their field bag. Incredible sonic performance, versatility and extreme value in a small package—that's the XENYX 302USB!
