## Safety precautions

### ⚠ CAUTION

*To prevent injury or fire, please take the following precautions:*

- Do not watch videos when driving.
- To prevent electric shock, etc. please do not let the metal goods(silver, coin, tools..) fall into the installation.
- If you smell or see smoke, turn off the power immediately and consult the place of purchase.
- Be careful not to drop or shock the unit strongly.
- Do not touch the liquid crystal to avoid hurting yourself. If your clothes are stained by it, please clean them with soap immediately.
- For your driving safety, please link your brake detecting wire with low power level, and keep it controlled by manual brake switch. wire should be high power level and the unit can not play DVD or VCD disc.

### ⚠ WARNING

*To prevent damage to the machine, take the following precautions:*

- Be sure the unit is connected to a 12V DC power with a Negative Ground.
- Do not install the unit in places where it is exposed to direct sunlight, high heat or humidity, water splash or dust.
- To change fuse, please use the same one in specification and capacity.
- When changing fuse, please do it after pulling down power wires to avoid short circuit.
- If the unit does not seem to be working properly, please press the reset button to resume the function.

Reset

### ⚠ PRECAUTIONS

*Please Note:*

- When driving a car, reduce the volume to be more aware of the road traffic.
- Avoid getting the speakers and disc wet from water or dampness while cleaning the car.
- Do not park your car in the direct sunlight and turn on the unit after it is cooling down in the car.
- Protect your mechanism, and do not put it close to magnet, screwdriver or other cohere stuff.

⚠ If you do not comply with the above items, it may cause abnormal running and system trouble.

# Electric Connection

## Installation

---

- Before installing the receiver, fit it in the suitable place of your car.  
Then connect the corresponding speakers and electrical connections.  
When your system is operated properly, follow the instructions installation

### INSTALL THE UNIT

- 1) Install the bracket
- 2) Bend over some slices to secure the installation of bracket inside of dash.
- 3) To avoid shake of the receiver, make sure to install the fixation strap behind the receiver.

### REMOVE THE UNIT

- Insert the keys into the small gaps in the right and left sides of the unit at the same time. Link the keys to the slices and then pull out the unit lightly to remove it from your car, and then pull out the connection plugs.

## Trouble shooting guide

---

What might seem to be a malfunction in your unit may just be the result of slight misoperation or miswiring. Before calling for after service, please check the following tables for possible problems first.

?The power does not turn ON.

✓ **The fuse has been burned out.**

 Confirm whether the fuse is short circuit, then replace the fuse with the same capacity.

---

?NO Sound.

✓ **The cable connect incorrectness.**

✓ **The Mute is turned on.**

 Connect the cable exactly; Turn the Mute off.

---

?Noise on Radio or poor reception.

✓ **Antenna and Antenna Cable.**

 Adjust the fix position or reconnect the antenna cable.

---

?Noise on both Radio and CD.

✓ **Black wire.**

 Clean the black wire and connect it to ground.

?No/Poor sound on one or more speakers.

✓ **Bad connection of speaker wire, incorrect setting of Volume, Balance and Fader.**

 Check the speaker wire, change the loudhailer, check the setting of Volume, Balance and Fader.

---

?CD sound skips.

✓ **The angle of installation is greater than 45 degree , the unit is not good fixed, or the bad quality of CD disc.**

 Adjust the angle of the unit to less than 45 degree and make sure the unit is good fixed; Use good quality CD disc.

---

?Unit completely in-cooperative, no Light or Sound.

✓ **Incorrect wire connection of Power RED/YELLOW or Ground wire or burn out of fuse**

 Check the Red wire to +12 Volts with key ignition switch, yellow wire to +12 Volts battery and black wire to ground. Check fuse with red/yellow wire, or check the fuse block on your car.

## **OWNER'S MANUAL**

---

Before installation and operating the unit please read  
this manual thoroughly and retain  
it for future reference
