

myPower™ for iPhone

RECHARGEABLE MOBILE POWER

Tekkeon

MP1200/MP1250

myPower™ for iPhone, a sleek sleeve, doubles your iPhone battery life while protecting your iPhone from everyday wear and tear.

A rechargeable, reliable and safe lithium polymer battery keenly hidden within myPower for iPhone powers your iPhone on the go. Designed with Tekkeon's smart technology, myPower for iPhone will bypass the iPhone battery to power your iPhone directly. This means that your iPhone battery is preserved as the case battery is depleted first.

myPower for iPhone doubles as a dock, enabling you to automatically and quickly sync and charge your iPhone via high-speed USB 2.0. There are no buttons to push, or extra steps to take—simply plug and play.

myPower for iPhone includes one myGuard™ screen protector for your iPhone 3G, and a USB 2.0 cable for connection to your computer or USB power adapter. An easy to read tri-color capacity indicator provides the power level in the battery, so you'll never be without power.

This lightweight battery/sleeve comes in two models: MP1200 is a two-tone synthetic leather sleeve, and MP1250 is a genuine leather sleeve.

Features

- Doubles iPhone battery life by automatically powering connected iPhone
- Automatically syncs and charges iPhone via high-speed USB 2.0 interface
- Simultaneously charges iPhone and battery while connected to power source
- Preserves iPhone battery via innovative bypass
- Provides protection to iPhone
- Reliable and safe lithium-polymer battery
- Includes myGuard screen protector for iPhone 3G
- Available in genuine leather and two-tone synthetic leather
- No interference with your iPhone reception
