🏠	indoor use
🔊	Built-in microphone to hear audio

Retail Security Kit
4 CCTV Cameras
Security Monitoring System

Cut the cost of shoplifting in your business! The perfect way to deter thieves and vandals!

Swann's Retail Security Kit is the perfect starting point for a business that realizes it has a shoplifting or shrinkage problem. The 5.5" black & white monitor features an auto-switch function so you can view the 4 operating security cameras from the same monitor with pre-set timing.

The 4 real cameras are designed with a black & white lens and a built-in sensitive microphone allowing you to SEE & HEAR clearly. You can see in the dark over a short 9ft (3m) distance as the cameras have built-in infra-red LEDs. All four cameras are identical, which gives the impression that your premises are protected by a higher level of surveillance.
