

NEW VISIONMOUNT SUPER SLIM TILTING MOUNT

MODEL VLT15-B1

Specially designed to highlight the sleek look of ultra-thin flat-panel TVs

Our new VLT15 Super Slim tilting mount offers the best of both worlds: it places ultra-thin LCD, plasma and LED TVs just .82" from the wall, yet still allows up to 10° of tilting capability. The VLT15 features the revolutionary Adjustable Virtual Axis™ technology, exclusively engineered by Sanus to compensate for today's variety of flat-panel TV depths and weights. Unlike other ultra-thin mounts on the market, the VLT15 also offers additional exclusive features including ProSet™ post-installation adjustments and ClickStand™ cable maintenance technology, making it incredibly easy to install and use.

model VLT15-B1 shown

Super Slim tilting mount sits just .82" from wall to complement the sleek look of ultra-thin TVs

Wall plate mounting holes designed to accommodate 16" or 24" on-center studs

ProSet™ post-installation height and leveling adjustments allow TV to be perfectly positioned after hanging

Lateral shift feature allows TV to move left and right for perfect placement with off-center studs

Convenient quick-release tabs on mounting brackets stay hidden, but easily pull down to unlock TV from wall plate for cable access

VLT15-B1

Adjustable Virtual Axis™ tilting technology is engineered to compensate for a variety of flat-panel TV depths

Innovative ClickStand™ holds TV away from wall for easy cable access without having to remove TV

ProSet™ Technology

Problem: TV does not appear level with its surroundings.

Solution: Exclusive ProSet™ technology allows height and leveling adjustments after the TV is mounted.
