

Central Axis™ Network storage server

Automatic data backup, secure web access and sharing, and convenient media access and streaming for your home network

1-TB Single drive

5 YEAR LIMITED WARRANTY

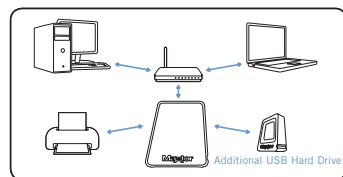

Digital videos of your children taking their first steps. The music library you've built. The 15 years of personal financial data you've compiled. They're highly valuable — if not irreplaceable — but when stored on your home computers they're also vulnerable to system failures and viruses, loss and theft.

Central Axis storage server delivers a smart, simple way to back up the valuable digital content on all the computers in your home network automatically. Backups happen automatically — a welcome change from the tedious chore of copying your content to discs and thumb drives.

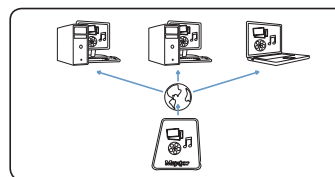

You can access and share your content securely via any web browser, too, so it's a doddle to grab a file from any computer in your home or on the road, and you can share content easily with friends and family everywhere. And for a rich home entertainment experience, you can create a centralised library of household photos, videos and music that offers anytime access and streaming to your networked TVs, digital music players and computers.

Features and Benefits

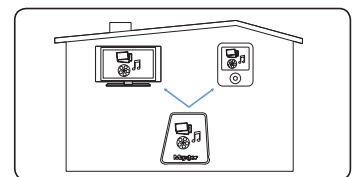

- **Automated data protection:** back up all your network-connected computers automatically to one central, safe location
- **Secure access to your stored content:** view images and slideshows from any Internet-connected PC, Mac or laptop, while keeping your firewall intact
- **Easy file sharing:** invite friends and family to view and download selected photos and other files via the web. You can even authorise guests to upload their own content
- **Convenient media access and streaming:** enjoy the convenience of a centralised, always-accessible library of your household's digital music, videos and photos, and stream media from your Central Axis to any networked computer or home entertainment device (requires a UPnP AV-compatible player)
- **Printer sharing:** print from anywhere on the network
- **Ease of use:** plug your Central Axis into your router and it automatically configures to your network. The server quickly loads and organises your content by file type, provides at-a-glance storage and backup status, and notifies you via email of system events

Easy setup and automated backup

Secure web access and sharing

Direct media access and streaming

Central Axis™ Network storage server

Perfect for When you Need to

- Back up and protect the content on all your networked home computers automatically
- Access your files securely when you're on another computer in your home or on the road
- Share files securely with friends and family around the globe
- Create a centralised, always-accessible library of your household's digital media
- Play videos and music, and view photos on digital entertainment devices throughout your home
- Have a network storage solution that is easy to install and use

Requirements

- Wired or wireless router with an available 10/100/1000 Ethernet port
 - Internet connection (for system updates and web access)
 - UPnP AV 1.0 certified Digital Media Adapter (if media streaming is desired)

Technical Specifications

- LAN: IEEE 802.1, IEEE 802.3u
- Transmission Speed: 1000 Mbps/100 Mbps/10 Mbps
- Connectivity: 10/100/1000 RJ-45 Gigabit Ethernet port
- Expansion/Sharing: USB 2.0/1.1 port for additional external hard drives or printers
- Drive Performance: SATA II, 7,200 RPM
- Compatibility: UPnP AV 1.0 compliant

Product Dimensions

6.8" H x 2.5" W x 5.9" L Weight: 1.5 lb (680 g)
 172 mm x 63.3 mm x 150.3 mm

Retail Packaging Specs

Box dimensions: 10.00" L x 11.00" W x 4.875" D (254 mm x 279.4 mm x 123.83 mm)
 Box weight: 4.57 lb (2.07 kg)
 Master carton dimensions: 14.75" L x 11.13" W x 10.13" D (37.46 cm x 28.26 cm x 25.72 cm)
 Master carton weight: 135.58 lb (61.5 kg)
 Master carton quantity: 3
 Master cartons per pallet: 40
 Pallet dimensions: 48.00" L x 40.00" W x 48.75" D (121.92 cm x 101.6 cm x 123.83 cm)
 Pallet weight: 593.04 lb (269 kg)
 Pallet layers: 4
