IMPORTANT SAFETY PRECAUTIONS

READ ALL INSTRUCTIONS BEFORE USING THIS APPLIANCE

When using an electrical appliance, basic precautions should always be followed, including the following:

! WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY:

1. Do not leave the Dyson vacuum when plugged in. Unplug from socket when not in use and before servicing
2. Do not use outdoors or on wet surfaces. Suitable for dry locations only. Do not use to pick up water.
3. Do not allow to be used as a toy. Close attention is necessary when used by or near children. Children should be supervised to ensure that they do not play with the Dyson vacuum.
4. This Dyson vacuum is not intended for use by young children or infirm persons with reduced physical, sensory or reasoning capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction by a responsible person concerning use of the Dyson vacuum to ensure that they can use the Dyson vacuum safely.
5. Use only as described in this manual. Use only Dyson recommended accessories and replacement parts. Do not carry out any maintenance other than that shown in this manual, or advised by the Dyson Customer Care Helpline. Contact the Dyson Customer Care Helpline when service or repair is required. Do not disassemble the Dyson vacuum as incorrect reassembly may result in an electric shock or fire.
6. Do not use with a damaged cable or plug. If the Dyson vacuum is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, do not use and contact the Dyson Customer Care Helpline. If the supply cable is damaged it must be replaced by Dyson, its service agent or similarly qualified person in order to avoid a hazard.
7. Do not pull or carry by cable, use cable as a handle, close a door on cable, or pull cable around sharp edges or corners. Do not run the Dyson vacuum over cable. Keep cable away from heated surfaces. To avoid a tripping hazard wind the cable when not in use.
8. Do not unplug by pulling on the cable. To unplug, grasp the plug, not the cable.
9. Do not handle the plug or Dyson vacuum with wet hands.
10. Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
11. Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts, such as the brush bar. Do not point the hose, wand or tools at your eyes or ears or put them in your mouth.
12. Turn off all controls before unplugging.
13. Use extra care when cleaning on stairs. Do not work with the Dyson vacuum above you on the stairs.

ASSEMBLY

- Lie vacuum cleaner flat and push on cleaner head until it clicks. Stand vacuum up straight, insert wand into hose and push into place until it clicks. Attach tool to the side of the vacuum cleaner.

USING YOUR DYSON VACUUM CLEANER

Press foot pedal and recline handle to use. The stabiliser stand will automatically lift up. To switch 'ON', press power button in front of handle. When finished cleaning, push vacuum cleaner into an upright position and stabiliser wheels will automatically drop. Use the carrying handle to carry the vacuum cleaner.

CAUTION:

- When returning to the upright position, ensure that the stabiliser wheels are fully engaged before releasing the cleaner.
- Do not press the cyclone release button while carrying the vacuum cleaner or it could fall and cause injury.

PLEASE NOTE:

- Fine dust such as plaster or flour should only be vacuumed in very small amounts.
- Do not use the vacuum cleaner to pick up sharp hard objects, such as small toys, pins, paper clips etc.
- Consult your flooring manufacturer's recommended instructions before vacuuming and caring for your flooring, rugs and carpets. Some carpets will fuzz if a rotating brush bar is used when vacuuming. If this is the case, we recommend vacuuming in hard floors mode and consulting with your flooring manufacturer. (Refer to carpets/hard floors section.)
- If used in a garage when cleaning the car, care should be taken to wipe the soleplate and wheels with a dry cloth after vacuuming to clean off any sand, dirt or pebbles which could damage delicate floors.
- When vacuuming, certain carpets may generate small static charges in the clear bin. These are entirely harmless and not associated with the main supply. To minimise any effect from this, do not put your hand or insert any object into the clear bin unless you have emptied it and rinsed it out with cold water.
- Only use parts recommended by Dyson; failure to do so could invalidate your guarantee.
- Do not use any lubricants, cleaning agents, polishes or air fresheners on any part of the Dyson vacuum.
- This Dyson vacuum is fitted with a thermal cut-out. If any part of the Dyson vacuum becomes blocked the machine may overheat and automatically shut off. If this happens, switch off and unplug the Dyson vacuum and allow to cool before attempting to check filters or for blockages. Clear any blockages before restarting.
- Store the vacuum cleaner indoors. Do not use or store this vacuum cleaner below 0°C (32°F). Ensure that the vacuum cleaner is at room temperature before operating.

CARPETS/HARD FLOORS

The brush bar will always default to 'ON' (spinning) each time you switch on the vacuum cleaner and recline it for cleaning. The brush bar will automatically stop if it becomes obstructed. If the brush bar stops during use, please refer to the 'Clearing brush bar obstructions' section.

To switch the brush bar off (e.g. for hard floors), recline the vacuum cleaner and turn it 'ON', then press the brush bar 'on/off' button – the brush bar will stop spinning.

HIGH-REACH CLEANING

CAUTION:

- Switch 'OFF' the vacuum before changing tools.
- Powerful suction can cause the hose to 'pull back' – please take care.
- To avoid personal injury and to prevent the vacuum cleaner from falling when cleaning stairs, do not work with the vacuum above you on the stairs.
- Ensure vacuum is in upright position before using tools.

PLEASE NOTE:

- To release the wand, open the wand cap and pull the red tube until the wand releases from the vacuum. Tools can be attached to either the hose or wand.
- The brush bar will not rotate when the vacuum is in an upright position.
- Ensure wand cap is closed when not in use.

EMPTYING THE CLEAR BIN

CAUTION:

- Switch 'OFF' and unplug the vacuum cleaner before emptying the clear bin.
- Empty as soon as the dirt reaches the level of the MAX mark – do not overfill. To remove the clear bin from the vacuum cleaner press the button at rear of carrying handle. To release the dirt, press the red bin release button.
- To minimize dust/allergen contact when emptying, encase base of bin tightly in a plastic bag before trigger releases dirt. Remove bin carefully and seal bag tightly, dispose as normal.

PLEASE NOTE:

- Do not use the vacuum cleaner without the clear bin in place.

CLEANING THE CLEAR BIN

CAUTION:

- Do not immerse the whole cyclone in water or pour water into the cyclones.
- Ensure the clear bin is completely dry before replacing.

PLEASE NOTE:

- Do not use detergents, polishes or air fresheners to clean the clear bin.
- Do not put the bin in a dishwasher.

- When vacuuming, certain carpets may generate small static charges in the clear bin. These are entirely harmless and are not associated with the mains supply. To minimise any effect from this, do not put your hand or insert any object into the clear bin unless you have first emptied it and rinsed it out with cold water.
- Clean the shroud with a cloth or dry brush to remove lint and dust.

WASHING YOUR FILTERS

CAUTION:

- Switch 'OFF' and unplug the vacuum cleaner before removing the filters.
- Ensure filters are completely dry before refitting into the vacuum cleaner.

PLEASE NOTE:

- This vacuum cleaner has two filters, located as shown. It is important to check your filters and wash with cold water regularly or as required, according to instructions, to maintain performance.
- The filter in the ball should be rinsed and tapped out until the water runs clean, then tapped out again to ensure all excess water is removed. Please leave to dry completely for 24 hours.
- It is normal for the filter in the ball to turn grey in colour. The filters may require more frequent washing if vacuuming fine dust.
- Do not use detergents to clean the filters.
- Do not put the filters in a dishwasher, washing machine, tumble dryer, oven, microwave or near a naked flame.
- Register for a filter wash reminder by email (Australia only); customercare@dyson.com.au

LOOKING FOR BLOCKAGES

CAUTION:

- Switch 'OFF' and unplug the vacuum cleaner before checking for blockages.
- Please ensure vacuum cleaner is upright before removing hose or airway inspection parts.
- Beware of sharp objects when clearing blockages.
- Refit all parts of the vacuum cleaner securely before using.

PLEASE NOTE:

- Clearing blockages is not covered by your vacuum cleaner's limited guarantee. If any part of your vacuum cleaner becomes blocked, it may overheat and then automatically shut off. Unplug the vacuum cleaner and leave to cool down. Clear blockage before restarting.

CLEARING BRUSH BAR OBSTRUCTIONS

CAUTION:

- Switch off and unplug the vacuum cleaner before clearing brush bar obstructions. Failure to do so could result in personal injury. If your brush bar is obstructed, it may shut off. If this happens you will need to remove the brush bar as shown and clear any obstructing debris.
